№ 7 за 2005 г., стр. 71.
Сергей Комаров,
генеральный директор ООО
«Радиовещательные технологии»
Хотя, в общем-то, догадывались, что некомпетентность большинства компьютерщиков в области радиотехники, систем передачи информации, электромагнитной совместимости и в вопросах использования радиочастотного спектра, в конце концов, не доведет до добра.

Первым пострадало радиовещание.

Включите радиоприемник на длинных средних и коротких волнах, где работает все мировое иновещание, и вы будете сильно озадачены обилием помех и непрерывным гудением по всем частотам радиовещательных диапазонов, явно не атмосферного происхождения. Весь радиовещательный спектр сильно замусорен излучениями различных цифровых систем передачи данных. Компьютерные технологии, призванные облегчить жизнь людям, при безграмотности их разработчиков в радиотехнике, вместо пользы начинают приносить вред.

В последнее время зачастую наблюдается бездумное отношение к использованию радиочастотного спектра со стороны компаний, предлагающих различные «экономящие» цифровые системы передачи информации. В частности, известна система предоставления доступа в Интернет или организации «домашних» и офисных локальных компьютерных сетей, использующая в качестве линий распространения сигнала провода электрической сети. Так называемый «Интернет через электрическую розетку». Эта технология известна еще и под названием PLC (Power Line Communication). И если в Вашем жилом доме или в офисном здании заведется хотя бы один пользователь такой системы, Вы больше не сможете слушать на длинных, средних и коротких волнах ни одной радиовещательной станции. А уж с дальним приемом радиовещания или с радиолюбительской связью на КВ придется и вообще распрощаться.

Как утверждает рекламный проспект этой системы, свободно полученный автором на одном из стендов выставки «Связь-Экспоком 2005», такая аппаратура «...позволяет подключить WAN в электрическую сеть с OFDM модуляцией и с диапазоном частот 3 - 34 МГц, в котором размещается 1536 несущих и обеспечивается скорость передачи данных до 200 Mbps». Этакая «жужжалка» на всех частотах КВ диапазона. Похлеще, чем глушилки времен холодной войны!

Разговор с представителями фирмы, предлагающей такие услуги, выявил полную некомпетентность их специалистов в радиотехнике. Они - чистые компьютерщики, - специалисты по передаче информации в цифровом виде. И такие основополагающие понятия, как «радиочастотный спектр», «электромагнитная совместимость», «чувствительность

радиоприемника», «отношение сигнал / помеха» были для них не более, чем несмысловым набором символов.

Главное достоинство системы PLC - это экономия на прокладке соединительных проводов между компьютерами. Но ее разработчики напрочь забыли, что создав дешевую систему и сэкономив копейки, они уже нанесли вред мировому радиовещанию на миллионы долларов.

Распространение в нашей стране этой и подобных систем выбьет аудиторию у государственных радиокомпаний, вещающих на средних и коротких волнах. Причем выбьет в самом уязвимом месте - в непосредственной близости от радиоприемников слушателей! И никакие мощности радиовещательных передатчиков не смогут перебить помеху, которая распространяется внутри жилых или офисных зданий по проводам электросети. В первую очередь лишатся аудитории слушателей такие радиокомпании как «Маяк», «Радио России», «Голос России», добрая половина действующих радиостанций на Дальнем Востоке, в Приморье, на Кавказе и во всех районах с гористой местностью, где основная нагрузка по информированию и оповещению населения ложится на средние и короткие волны. Пострадают и различные системы коротковолновой связи. Фактически, с внедрением PLC, МЧС лишится системы оповещения населения, а военные - нескольких уровней оперативного управления войсками. И это более, чем серьезно.

Возможно, в Европе, где малы расстояния и телекоммуникационные сети сильно развиты, вопросы оповещения населения через радиовещание и не стоят так остро, что данная система была разработана и получила распространение, но в России использование технологий, которые являются источниками помех радиоприёму должно быть запрещено в административном, а еще лучше, в уголовном порядке. И при обнаружении таких средств органы Россвязьнадзора по нашему мнению должны их конфисковывать и уничтожать установленным порядком.

Следует отметить, что и Европейские радиостанции, ведущие иновещание, серьезно озабочены сокращением своей аудитории из-за внедрения PLC. В частности, такие компании как, «Немецкая волна» и «Би-Би-Си» уже ощущают на себе потерю аудитории европейских слушателей и предприняли рад весьма дорогостоящих исследований по защите от помех от этой системы передачи данных, результаты которых опубликованы на Интернет-сайте компании «Би-Би-Си». Международный DRM консорциум также обращался в Международный Союз Электросвязи (ITU) с просьбой поднять вопрос о недопустимости использования PLC. Данный вопрос также активно изучается в рамках рабочей группы SE35 CEPT. К сожалению технических критериев защиты пока не найдено. Однако, похоже, что в Европе радиовещатели и Международный Союз Электросвязи решили подождать, пока эта система, в силу своей ущербности, отомрет сама, однако в России, при огромной нашей инерции, такой подход чреват весьма большими бедами.

Хочется обратить внимание Россвязи, Государственной Комиссии по Радиочастотам (ГКРЧ), Главного Радиочастотного Центра (ГРЧЦ), Россвязнадзора, радиочастотных органов Министерства обороны, ФАПСИ и МЧС на серьезность ситуации с вопросом обеспечения электромагнитной совместимости радиоприёмных устройств СВ-ДВ-КВ диапазонов радиоволн с новоявленными PLC технологиями, которые начинают активно внедряться на наш рынок и являются источником недопустимых помех эфирному радиоприёму.

Вероятно, в связи с появлением подобных систем, назрела необходимость чтобы ГКРЧ инициировала исследования по разработке критериев совмещения этих систем с заинтересованными радиослужбами (или норм на излучения систем PLC в зонах радиоприема) и представила материалы исследований в качестве вклада Российской Федерации в соответствующую Исследовательскую Комиссию Международного Союза Электросвязи. Разумеется, до этого времени внедрение технологии PLC должно быть законодательно запрещено.

Впрочем, помощь в сохранении отечественного радиовещания можно получить и от РАО ЕЭС, если они запретят подключения к своим электрическим сетям каких-либо активных источников сигналов, кроме обычных потребителей энергии. Если же этого не произойдет и РАО ЕЭС останется лишь пассивным наблюдателем, то, наверное, придется радиолюбителям разработать активные устройства, локально блокирующие работу систем PLC и при этом не создающие эфирных помех. Как учит радиотехника, помеха должна быть блокирована в месте ее возникновения!

Здравствуйте! Отвечая на помещенную Николаем информацию, хочу высказать мысль о том, что при полном безправии украинского радиолюбительства, отсутствии юридических знаний у большинства НАМ, нежелании и неспособности руководства ЛРУ и местных отделений ЗАЩИЩАТЬ права своих членов (как это делается во всех цивилизованных организациях)-во всех городах и весях Украины радиолюбители познают все ЭТИ технологические прелести! :-(Я писал неоднократно о существовании проблемы с правовой защитой радиолюбителей. Но тема не находила поддержки. Что свидетельствует о нежелании или полном отсутствии правовых знаний у большинства радиолюбителей! Ребята! Так дальше нельзя! В любой организации сегодня юрконсультант-одно из главных лиц. 73!

Костя.
Я всегда знал, что л091;чший способ обороны, это - нападение.
Ты наверное мк7;ня не слышал, когда стано074;ился точно п;о нулям на мою
частоту.
Ну а по поводу м086;щности, прие;зжай, посмотри, и проверь.
Не все ведь, т072;кие как ты.
И 085;а двух радио; я пикаю самостоятельно,
80; мощность соблюдаю.
Да, забыл, еще и антены свои делк2;ю, а не языком; треплю без дела (как
ты)!

2 x TS-950SD
1 x TL-922
1 x Sloping Vertical
1 x Inverted Vee (never used)
1 x Reversible Beverage

No packet, no phased arrays, no multitude of Beverages, and no heat
(on the first night). Just two eager and dedicated operators, simple
antennas, a great location, a sought after multiplier, and a LOT of wind.

We arrived separately on the South East coast of Labrador on
Wednesday, and met up Thursday morning. We went out to Point Amour to
start setting up. The road was clear, so we could drive right up to
the fence, but the yard was too full of ice and snow for us to drive
any further.

We started setting up in the fog alarm building, where there was
electricity and heat. We got the two TX antennas (vertical with three
radials and inverted vee) up easily and quickly. The winds picked up
as the day wore on.

Friday, the winds were screaming strong and they stayed that way 'til
Saturday night. At times, when trying to set up the Beverage, it was
all we could do to remain standing. We managed to get the Beverage
strung out and radials at one end (good luck trying to drive a ground
rod up there at this time of the year!) before we came to our senses

and got out of the weather. With a lack of supports, the wind, not us, decided which way the Beverage wire would go. The wind, coupled with temperatures in the -5? to -10?C range, wore us out and made us very cold.

Afterwards, several long-term residents told us they had never seen such winds, and never for such a long period. At Brador QC, about 50km west of us, they were clocked at 190km/h! They couldn't have been much less than that at Point Amour.

Because of the wind, we lost power at Point Amour on Friday morning. As the hour for the start of the contest approached, we were getting more nervous. We eventually learned that NL Hydro had given up on fixing the line 'til Saturday, so we rented a generator in L'Anse au Loup.

So, with that generator, we had enough power to power the rigs, amp and computers, but not the heater, so we began the contest with full power, full logging, but no heat. We resolved to operate until the generator ran out of gas, and that took us to 0745Z (4:15am local) Saturday morning. Being worn down by wind and cold, the generator cutting out was welcome, even though the first night's runs were very good.

At 1430Z (11am local) Saturday, the power came back on (NL Hydro replaced three insulators), so we returned the generator, even though the winds remained very high.

At about 1730Z (2pm local), we were ready to go back at it, and Europeans were audible. They were actually workable shortly after, and the second night got off to a great start. We carried on 'til well after sunrise, all the while thinking we were in catch-up mode, with frayed nerves. Our score at that point would have beaten last year's 3rd place WW Multi-op score, so we were pretty pleased.

Late during that second night, the winds went from screaming strong to just about calm in a matter of a few minutes. It was eerie.

At times, the band sounded like 20m. We were able to record most of the QSOs from the second night. We worked all States except Idaho (never heard one, despite intensive searching on the second rig) and all provinces except VY1, VE8, and VY0. There were only two multipliers that we heard but were unable to work: ZL6QH and V51AS. One of them (I don't remember which one) copied "O2A" before starting another CQ.

We lost about five hours of good operating time due to the storm + power failure + cold and had no packet assistance.

See http://www.qsl.net/ve3fu for a few pictures (in a couple of days). We hope to have a more detailed description of our trip on the web page in the next couple of weeks.

Thanks for all the QSO's! Despite the wind and loss of power, we had a great time!

73,

Chris VE3FU / VO2AC
Dave VO1AU / VO2AAA

(Who knows, we may be back again next year to see if we can work Idaho to complete WAS :=)

We currently have SM calls and since very recent SA calls for personal calls since SM calls are starting to be filled.
SI - has been used as special call and in those few times mostly as SI8 which is the Swedish part of Market Reef.
SJ - has what I understand only been used at SJ9WL which is the Morokulien station on the border between LA-SM land and it switches between a special norweigan and SJ9WL every 2nd week (This is a rent very cheap QTH that is popular).
SK and SL is as mentioned below.

Since untill about a year ago, 7S and 8S were only used as special calls but then we were aloud contest calls for 100 SEK a year which has now been upgraded to 150 SEK / year. approx US$20 or ?uro13.

To answer your question, the calls will be permanent and aloud to use in and out of contests.
How do you mean 2x1calls? One suffix? If so, Yes, 1-4 suffix letters can be choosen.
They are available on demand, if it is taken you will just have to wait and see if it gets available again.
The cost for a vanity call is as contest call (which will now also be a vanity call in the way that one will be able to use it in and out of contests) - 150 SEK which is approx US$20 or ?uro13 / year.

One may apply allready now with what call one wants but it can only be used if paid for and after Feb 15th.

Comments:

I think it has been a few years since I last did this one and decided it was
time to make a comeback appearance on the digital contest scene!

First I have to thank John, N3HBX, for the use of his new station. He has
some
really impressive hardware out there... He was also quite tolerant to allow
me
to rearrange things a bit so I could run my kludgy old computers networked
with
WF1B and RITTY software.

Certainly wasnt my best effort possible, but under the circumstances was
quite
happy with the result.
```

The biggest problem I had the whole weekend was the serious cold my 6 year old
passed on to me just in time for the contest. I was OK the first evening, but
early Saturday morning I could tell I was running a fever and it became more of
a distraction. I had brought my small collection of my favorite OTC drugs with
me, but it was low on "Excedrin" and I had to ration it. By Saturday evening, I
was really suffering from fatigue and started nodding off at the radios in the
middle of QSO's. I had to take a couple hours off in the middle of the low band
opening to get some rest. It didnt get any better, but I did get my 30 hours
in. I opted to finish the contest early Sunday and skip the last couple of
hours so I could pack up and drive home early.

We also had our first big snow storm of the year blow through Saturday and it
caused the usual massive amounts of RX noise that evening. Without the beverage
antennas, I probably would have written off the whole evening. It certainly
hurt the score, but it could have been a lot worse. Snow also collected on the
satellite dish, which caused my internet connection to go away for quite a while
until the winds came the next morning and blew it off again!

Best hourly rate was 124Q's Saturday morning working 15 and 20 meters for the
first time. Best DX was probably Bear Island...hadnt worked that one in many
years.

Anyway, should be good enough for a new US single op record until next year!

The activity levels just keep climbing every year, which makes it more difficult
to rest on your laurels for any length of time!

73, Ty K3MM

Приветствую Георгия и всех,

От моего имени кто-то процитировал мое старое письмо о
макросе в Миксе. При этом приблудился еще чей-то тезис о
UCC#номере. Я этого никогда не писал (да и номер у меня
другой). Прошу прощения за возникшее не по моей вине недоразумение.
В Чемпионате поработать не смогу, так как только несколько
часов назад вернулся из второй подряд командировки и
накопилось много неотложных дел. Дай Бог к телеграфному туру
расхлебать. Всем успехов в Чемпионатах Украины,

Kind regards and 73! de Sergei UX1UA aka UV5U, EN1U

Здравствуйте, URcontest.

За несколько часов до начала теста, вечером,
решил работать на всех диапазонах. Для этого
пошел поправить IV 160m. В итоге один луч запутал
за инвертед 80м. До темноты с трудом удалось вернуть
все назад. После этого решил работать только на 80м.
В итоге получилось так:

Tour Band Calls Domains Points
1 80m 83 48 646
2 80m 85 51 680
Total 168 99 1326

12851. Fw: BARTG HF RTTY Contest

Yahoo group: URcontest (2006 — 2007)
Date: 2006-03-17 07:49:03 UTC
From: Vladimir A. Gordienko
Topic: 12851 Message: 12851

Just a reminder that now is the time to sort out the software and logging for the BARTG test this weekend, as some have already been doing.

Don't forget that the log must have full exchanges (RST, serial number, time) sent and received. Don't use the 'BARTG Sprint' option in your software as you will not log times and may not be able to produce a correct entry for the test. If in doubt just enter a few dummy QSOs and create a contest log. It should have all the required information.

Full rules and sample logs are on the BARTG website www.demon.co.uk. Finally make sure the contest name in the log is BARTG-RTTY.

Good luck to everyone taking part and please send me your log even if it's just a few contacts.

73,

John GW4SKA
BARTG Contest Manager

Вот удивительно, как из простой вещи сразу негатив делается... Это не PR . Действительно

Hello, URcontest.

Привет Всем!
Мне сегодня в телефонной беседе задали вопрос, на который я не смог ответить.
Может подскажите...
Ребята, которые ездят в Европу отдохнуть и в эрире поработать этот вопрос наверное будет к Вам!
Что нужно для того, чтобы оформить лицензию,на время,для работы с Европы?
А также сколько это все будет стоить?
И сколько примерно европейские инстанции денег просят за работу на их территории?
Спасибо всем кто ответит!!!

sure is a lot of spotters who went to ed7zab-5 just to make their one and
only spot for the weekend!
anyone want to get ip addresses from that node to see where they really came
from?

i don't like to do this, but even spider nodes can be made to yield ip data
if you know how...

Hi all,
As a followup to Dan Henderson's post on the ARRL DX CW 2006 log
deadline, I have loaded this claimed scores data into an Excel spreadsheet.
Some minor data cleanup was done as well.

Slice it, dice it, sort'em any way you like:

Dear Fellow Contesters,

it's another YU DX Contest season!

Last year an interesting international competition took place, as evidenced, for example, by 7 out of top 10 LOWER HP
stations being out of Europe. A suprising number of QRP stations appeared, with the most popular being, of course, LP.

It's a great pleasure to announce ALLBAND Plaque winners, who achieved the best combined LOWER and UPPER scores.
The global competition in all the categories certainly made it quite a success to reach even the middle ranks. Therefore,
we accepted the advice to award all the substantial scores, both as a recognition of the effort, and a way to say thanks.

The new rules worked well. The 4-hour rest period between 8-hour parts made it a more enjoyable event,
and the simple choice of operating on lower or upper bands (or both) has resulted in many more QSOs.

This year's YU DX Contest is an excellent opportunity to collect points for the jubilee "Nikola Tesla" award.

Please visit our web site http://yudx.net for more details and free software.

Wishing you the best of fun in the forthcoming YU DX Contest,

Sinisa YT1NT, VE3EA

Cabrillo format for SP DX Contest Logs
Cabrillo is a plain text file where all information is properly formatted.
Cabrillo file has always header section and QSO data section. Header section
is used for general information: your call, name, address, category of
participation, claimed score, comments (soapbox). Usually this information
is based on what you input when you started you contest software for the
first time. So have a look at the header of Cabrillo file for SP DX Contest:

START-OF-LOG: 2.0
CALLSIGN: KG4LSU
CATEGORY: SOSB 20M CW
CLAIMED-SCORE: 15
CLUB:
CONTEST: SPDXContest
NAME: MIKE ZASADA
ADDRESS: Yellow Street 999
ADDRESS: Athens 8090-8899
ADDRESS: USA
OPERATORS: MIKE - KG4LSU
SOAPBOX: RIG:FT-990
SOAPBOX: PWR:100
SOAPBOX: ANT:3EL HY-GAIN
SOAPBOX: SW:SPSPDXC-LOG(WW) by LA0FX ver 4.00a
So we have the header. Now something about QSO data section. It is exactly
the information you logged during the contest. Have a look:

Hello!

This e-mail is to invite all contesters to have a go in the European
Sprint contests 2006.

Please remember that, starting this year, we made a couple of
chages to the Eu Sprint rules.

The first change will apply to ALL the four events.
The time has been moved 1 (one) hour ahead. The four Sprints will begin at
16:00 UTC and will end at 19:59 UTC.

The second change will apply only to the two SPRING events.
Modes will be switched so the first 2006 Sprint (April 8) will be CW
(Manager G4BUO). The second 2006 event (April 15) will be SSB
(Manager 9A6XX).

If you're wondering which software to use, DL2NBU's program has
been written specially for this contest. It is very much like K1EA's CT,
and it is FREE for download from the new Eu Sprint web
site <http://www.eusprint.com>.
SD by EI5DI, TRLog by N6TR, WriteLog, Win-Test, N1MM Contest Logger
(and many others) all support the Eu Sprint, and if you prefer to log
on paper, that's fine as well. We accept any fixed column ASCII
file, too.

So, we hope you will give the Sprints a try in April and in October,
and then send your logs to <eusprint@...>. The full Eu Sprint
rules are shown below.

73 from the EU Sprint Gang
G4BUO, I2UIY, OK2FD & 9A6XX

About Eu Sprint:
- download the FREE software,
- rules in English, Italian, French, Spanish, Portugese, Russian, Czech,
German, Polish, Greek, Croatian
- all past results from 1994,
- download full logs and ubn reports,
- all time records,
- find more information about Log Checking,
- and much more about the Eu Sprint....
You will find everything here: <http://www.eusprint.com>

Eu Sprint Contest - 2006

ENTRANTS: any licensed station may enter the Sprint. European stations can work everybody; stations outside of Europe can work only European stations.

CATEGORIES: Single Operator ONLY. Only ONE signal may be aired at one time. Low Power entries (up to 100W) will be indicated by an asterisk (*) in the listing.

DATES:
EU SPRINT Spring:
* CW: first Saturday in April - 8 April 2006 - managed by G4BUO
* SSB: second Saturday in April - 15 April 2006 - managed by 9A6XX
EU SPRINT Autumn:
* SSB: first Saturday in October - 7 October 2006 - managed by I2UIY
* CW: second Saturday in October - 14 October 2006 - managed by OK2FD

TIME: from 16:00 UTC until 19:59 UTC.

BANDS: 20, 40 and 80 metres only.
Pilot frequencies are: SSB: 14.250, 7.050, 3.730. CW: 14.040, 7.025, 3.550

EXCHANGE: all of the following data MUST BE PART OF THE EXCHANGE:
a) your callsign,
b) the other station's callsign,
c) your serial number starting from 001 (RST not required),
d) your name or nickname.
Please note that BOTH stations MUST repeat BOTH callsigns DURING the exchange.
A valid exchange is: "OK2FD de I2UIY 118 Paolo" while "OK2FD 118 Paolo" is NOT a valid exchange.

SPECIAL QSY RULE: if any station initiates a call (by sending CQ, QRZ?, etc.), he is permitted to work ONLY one station on the same frequency. He must thereafter move AT LEAST 2 (two) kHz before he may call another station or before he may solicit again (CQ, QRZ?, etc.) other calls.

VALID CONTACTS: valid contacts are QSOs correctly logged and confirmed. Each operator may use ONE and ONLY one name during the Sprint. If the exchange is copied incorrectly, that operator will receive zero (0) points. In case of miscopied callsigns, both stations will receive zero (0) points for that QSO.

SCORING: each valid QSO counts one 1 (one) point. The final score is the total number of QSOs.

AWARDS: Colorful certificates will be issued to the winners of each Sprint, and to the leaders in each country.

EU SPRINT PLAQUE: A special plaque will also be awarded for the top three scores from all four contests combined. To be eligible for this award an operator must enter at least three of the Sprints in the year. Results will be forwarded as soon as possible to Leagues, magazines and bulletins.

LOGS: a single chronological log is required. Please send us your log via email or on a floppy disk, if you use computer for logging. Use any of the available software or send a plain ASCII file. Eu Sprint is supported by all the major software (N6TR, Writelog, Win-Test, N1MM, SuperDuper and many others; see the software information on our webpage).
If you want the latest release of the DL2NBU software, you can download it from the new EU Sprint web site: <http://www.eusprint.com>.
Log files must be sent NO LATER than 15 days after the contest to: <eusprint@...>. The receipt of your electronic log will be immediately confirmed. If you do not receive a confirmation within few hours, try again or use the postal system.
Disk logs, or paper entries must be posted NO LATER than 15 days after the contest to the appropriate address:
* Spring CW Sprint: Dave Lawley, G4BUO, Carramore, Coldharbour Road, Penshurst, Kent, TN11 8EX, England, UK.
* Spring SSB Sprint: Hrvoje Horvat, 9A6XX, 25 Rujan 4, HR-52000 Pazin, Croatia.
* Autumn SSB Sprint: Paolo Cortese, I2UIY, P. O. Box 14, 27043 Broni (PV), Italy.
* Autumn CW Sprint: Karel Karmasin, OK2FD, U Oburky 1007, 674 01 Trebic, Czech Republic.

Thanks in advance for your participation de: G4BUO, I2UIY, OK2FD & 9A6XX.

Я это тоже пытаюсь узнать и понять вот уже несколько лет! Увы, никто
толком не может объяснить этот феномен "зулу". А с учетом перехода на летнее
время не раз уже некоторые начинали или на час раньше, или на час позже...
И еще. Уже не совсем по теме, но для интереса... Попробуйте проконтролировать
сигналы точного времени, передаваемые радиостанцией, положим, "Люкс ФМ" и
телевизионными каналами "Интер" и российским первым каналом "ОРТ".
Любопытно весьма! Разнобой - секунд шесть! Типа, кто не успел проверить -
передаем еще раз! ;-)
Может поэтому некоторые и начинают контест на пару минут раньше и растягивают
последнюю минуту? :-)))

Спасибо, Владимир!
Я этим всем тоже пользуюсь. Просто я посмотрел глазами пересичного
гражданина, который понятия не имеет об эталонных частотах, а
корректирует время по сигналам "точного" времени, передаваемых
средствами массовой информации. ;-)

I've updated SD for the EU Sprint 2006. V12.16 runs on any
Windows PC and is free from www.ei5di.com/sd/sdsetup.exe.

In particular, SD now supports ESM in both Run and S&P modes for
the CW event, and clearly shows what mode you're in and what the
next Enter will send. The mode is toggled after every QSO.

The exchange is hard-coded in the recommended format for Run or
S&P as appropriate - there's no need to change F2 or any other
memory.

12985. Welcome to ES OPEN on April 15th!

Dear friends and contesters,

ES OPEN HF Championship will take place next Saturday, April 15th, from 0500 to 0859 UTC on 40m and 80m! We invite you to participate in this nice small contest. There will be many ES stations active and contest is held both in SSB and CW.

International winners get special trophies from ERAU plus all country winners will be awarded. There is also a special LP trophy.

NB! Log deadline is May 20th, not June 1st anymore!

Please check the results and rules from www.erau.ee:
http://www.erau.ee/modules.php?op=modload&name=Info&file=index&req=viewarticle&artid=68

Congratulations to 2005 winners:

Category A (MIXED) - YL7X, Arvis Mikals

Category B (SSB) - OZ1ADL, Jan Thogersen

Category C (CW) - LY7M, Algirdas Uzdonas

Category D (CLUBS) - YL1S, ops YL1ZS and YL2VW

Category E (SWL) - R3A-847, Vladimir Ignatov

Special trophy to best LP station: YL2PJ, Zigurds Belasovs

Rules are very easy: the contest consists of 4 equal one hour periods where you can work a station once on both bands. Thus 8 times maximum in total during the contest. Foreign stations can work ES stations only and multipliers are ES region prefixes (0 to 9) on both bands and modes. So 20 for CW/SSB and 40 for Mixed class.

CW QSOs give 2 points and SSB 1 point. Report is RST + QSO number.

Text format logs should be sent to esopen@...

You can use WPX configuration of different logging programs as ES prefixes are all multipliers. Just have to clean dupe sheet after every hour or start new log. TR log is easy to use, we have a sample CFG file on ERAU web page.

CU next Saturday,

73

Здравствуйте.
Андрей UT2UB опубликовал предварительные итоги ЧУ CW, но не выдал
список радиостанций, не приславших отчеты. Пришлось сделать это мне
самому, сравнив список Андрея UT2UB от 04.04.2006 и итоги.
Предлагаю вашему вниманию:

UT5SA +
UR5GBW ++
UT3EW +
UX3IWR ++
UR5EUP
UX5NW +
UR4IGP
UR4EWT
UY1HY
UT1AM
UT5AWW +
UR4MV
UX2QA
UR5ISQ

По этой причине у меня "вылетело" 8 QSO (см. + выше). Не смертельно, но обидно,
понимаешь... :-((
И поэтому в моем файле initial.ex (N6TR) у этих позывных после букв области
сделана запись /LOG. Например, UR5GBW HE/LOG. Теперь при наборе данного позывного
в строке принимаемого контрольного номера появляется HE/LOG. Наглядно и понятно.
Дальше решаем сами, иметь или не иметь! Но если амнистия и ввести
все-таки # номер связи, то в журнал /LOG не заносится, а только HE и # номер,
так как и надо.

Всем удачи и до встречи завтра в ЧУ в 20.00 UTC (23.00 UKR) ;-)

YU DX Contest Web Site http://yudx.net is experiencing slower access than usual.
Our service provider is working on the problem.

Logs should be sent to logs@... .
Email works fine and over 50 logs have been received so far.

Please send a single log for all bands.
Don't worry if the score is not computed correctly, we'll do it.
Recalculated scores will be published on the Web Site shortly.

Cabrillo is the prefered format, but any ASCII text format goes.
If possible, avoid sending Word or Excel files with complex formatting.

Please send in your pictures, stories and suggestions
to be published in the YU DX Contest Brochure.

Thank you for joining this year's YU DX Contest!

Этот вопрос адресован Макеевсий аматорам....
Тут такая ситуация, пришол отчет за день активности Н-Каховки от Гореликова (фамилия написана не разборчиво. Горе... это точно, а что дальше я только догодался,могу ошибаться) Михаила Владимировича проживающий по улице Лазо д.75 г. Макеевка - 20. А позыного своего не указал. :-)
Подскажите, кто знает????
Спасибо!

Здравствуйте, Max.

Я так думаю, что обращаться по такому вопросу в судейскую коллегию практически бесполезно. Объясню. Судейская коллегия руководствуется исключительно Положением о Чемпионате Украины. А в Положении нет и намека или упоминания о строгом соблюдении спортсменом требований Регламента. Раньше такие заверения мы писали на титульном листе. Пришли другие времена... Ссылаться на "само собой разумеющееся" - не стоит. Такие случаи уже были. Поэтому данное нарушение находится в юрисдикции областных филиалов УГЦР (ранее - ГИЭ).

> Кстати,нарушение п 10.1
> влечет ответственность,в размере закрытия р/ст при первичном
> нарушении на 3 месяца.

Это в том случае, если оператор неопровержимо докажет, что работал действительно из Севастополя и его нужно за это ну как бы слегка пожурить. Но в данном случае, я думаю, это должно квалифицироваться как запрещенная Регламентом работа неприсвоенным позывным (п.8.3.3), т.к. дробь А присваивают в ГИЭ согласно п.п. 9.4 и 10.1. Поэтому, в этом случае станция подлежит закрытию за первый случай на срок до одного года (п.13.7), при повторном - лицензия аннулируется (п.13.8).

Просмотрел свой лог и предварительные итоги ЧУ CW. У меня в логе - UU0JX/A, в итогах просто - UU0JX. И провел он ровно 100 связей (84 подтверждено при 30 обязательных)...

Явная отсебятина. Не поленился, нашел регламент.

9.4. При тимчасовому перенесенні АРС у межах території України до постійного позивного сигналу через дріб додається літера "А" - у стаціонарних умовах, літера "Р" - у польових.

10.1. При тимчасовому перенесенні АРС у межах території України на термін до одного року її користувач повинен попередньо повідомити регіональний підрозділ ДІЕ, на територію якого здійснюється перенесення АРС.

Где написано, что /А присваивает ГИЭ? Где написано, что оператор _должен_ получить разрешение на работу /А или хотя бы подтверждение, что ГИЭ соответствующей области получила _уведомление_ о временном переносе. Причем, даже не регламентируется, в каком виде это уведомление должно быть сделано -- телефонный звонок, личное присутствие с разрешением, на котором ГИЭ шариковой ручкой должна дописать /А, письмо, телеграмма, факс????

Ну и для UU9CW. Если есть _доказательство_, что UU0JX не _уведомил_ ГИЭ Севастополя -- жалуйтесь. Если нет, то на нет и суда нет.

This campaign is about Human beings, Democracy, UNHCR, Refugees, The Iraqis, Islam, Kurds, Human rights, Respect, Money, Donations, Angelina Jolie, Pavarotti, Giorgio Armani, Donors, Peace, History, Campaigns and about you if you care about these words.

Hi there,

I am SAM, an Iraqi refugee living in Lebanon at the moment; I have spent the last 10 years of my life as a refugee registered with the UNHCR in Beirut. The last 4 years, I have spent as an activist for peace and human rights (especially refugees and asylum seekers) on the Internet; I'm also books author and ebooks publisher. I have launched many campaigns to improve our situation as refugees in Lebanon and hopefully bring more understanding to our problems worldwide. I helped make many changes and improvements at the UNHCR office in Beirut; I used the Internet as the field for my activities (you can read more about that in my free ebook 'MY CAMPAIGNS'). All my ebooks are free and could be download from my sites.

This is my newest campaign, it's about the illegal and humiliating actions of the UNHCR, who using photos of refugees as banners and human-buttons to collect money. This is an abuse of the dignity and humanity of the refugees and must stop immediately and a clear public apology present by The United Nations High Commissioner for Refugees. My friends, I am talking about the pictures you can see here:
http://lebanon1.250free.com/human-buttons.htm

Also you can read my new campaign 'Urgent, we need smile' here:
http://unhcrlebanon.s4u.org/email_me.htm

For more info about UNHCR and life of refugees you can read my free ebooks. I invite you as fellow humans and members of the world community to support my campaign by reading my article on my site and see the human-buttons. The campaign is to support and improve the UNHCR http://www.unhcr.org especially after the last scandals in the UN and UNHCR, just for example: http://www.mizzima.com/archives/news-in-2005/news-in-april/12-April05-22.htm

Смело, однако, насчет отсебятины и весьма категорично.
Вопрос интересный. Но не для взрослого человека, который должен понимать, что должен быть на руках документ, подтверждающий право работать в эфире на данной территории. В вашем разрешении записан точный домашний адрес, но не вся территория Украины. И коль скоро разрешения на работу в эфире выдает ГИЭ, то и их прерогатива выдавать дроби, ВХОДЯЩИЕ в состав структуры позывного сигнала и ПРЕДУСМОТРЕННЫЕ п.9.4 Регламента. А присваивают себе позывные сами знаете кто. И если процедура данного вопроса в Регламенте подробно не расписана, то это не значит, что можно делать, как хочу. Обычно в любую организацию обращаются письменно и в течении месяца вам должны дать ответ. Кроме того, выдав .../А, ГИЭ в определенный срок ставит в известность свои службы мониторинга. Или не приходилось слышать, получая разрешения на вновь открываемые станции, что работать можно с такого-то числа? Даже СПСы назначают за месяц до начала работы и никак не меньше. Сколько возмущений было, но увы... Ну, предположим, работаете вы из офиса филиала своего друга-радиолюбителя, помехи, сигнализация, милиция... И что вы им предъявите? Свое разрешение с другим адресом? Или Регламент? Или скажете, что звонили в ГИЭ, но там никого не было, ответила

уборщица и вы предупредили её? ;-)
Таково мое личное видение данного вопроса. И если оно не совпадает с чьим-то, то нужна коррекция Регламента на будущее.

P.S. Поскольку вопрос вышел за рамки тематики данного рефлектора, все возражения и предложения, пожалуйста, в приват.

Всем привет.
Я молчал пока господин UU5WW не перегнул палку по типу -вы там все
заткнитесь.Так общаться с людьми нельзя!Я сам могу заткнуть кого угодно....
Лично я не против работы из редких областей,а наоборот - всеми
руками ЗА.Речь идет всего лишь о том,что никто никуда не выезжал,
а работал в лучшем случае,из дома /А, а не из какого - то офиса
или из Верхнесадового(как было заявлено ранее).
Так,что на будущее - приезжайте,разворачивайтесь и работайте....
И при этом не забыть бы предупредить местное ГИЭ.Кстати оно
также не в восторге от данной акции.
И не надо применять "маленькие хитрости"...

Реагировала однозначно.
Все выяснили,дали свою оценку.
Личный позывной (какой именно уточнять не буду)
товарища был анулирован на 1(один)год.
Дело даже дошло до суда.
Недавно он снова получил позывной.

Думаю, что речь выше идет о предусмотренном Регламентом разрешении для
работы с подвижных объектов. Оно действительно размерами с
удостоверение водителя, но дает право без уведомления ГИЭ работать
только на частотах выше 30 МГц (п.10.2).
И пользуясь имеющейся у меня возможностью прямой связи с куратором
радиолюбителей в УГЦР, завтра направлю письмо с просьбой разъснений
по поводу механизма уведомления и оформления .../A (P, M, MM, AM).
Ответ сообщу. Если будет... ;-)
Как видим, разночтения приводят, увы, к скандалам...

Так где доказательства, о наличии которых так долго твердят
большевики? Раз уж волну при всём народе пустили, доведите дело до
конца, тем более, что обвинения положено _обосновывать_, иначе это уже
клевета. Очень хочется почитать хотя бы упомянутое "официальная бумага
из ГИЭ по поводу участия UU0JX/A с территории Севастополя".

Hello!

This email is to invite all contesters to have a go in
the ARI International DX Contest 2006 that will take
place on May 6/7.

It's a world wide type competition and the allowed
operating modes will be SSB, CW and RTTY.
ARI DX Contest is fully supported by WriteLog for
Windows, SuperDuper by EI5DI, TRLog by N6TR, N1MM
Contest Logger, RTTY by WF1B, RCKLog by DL4RCK,
OH2GI Ham System, GenLog32 by W3KM, UA1AAF and
several other softwares. Take a visit to ARI DX Contest
webpages and download a FREE program at the following
URL: <www.qsl.net/contest_ari>.

NOTE: If you will use UA1AAF software, please, look for
the last available release.

NOTE: The new E-mail address to submit your log
is: <aricontest@...> .

We hope you will give the ARI DX a try in the first
full weekend of May, and then send your logs to
<aricontest@...>. We are able to convert any
kind of file's format, but Cabrillo or others ASCII
files are preferred and welcome. The full ARI DX
rules are shown below.

73s and see you in contest
de IT9BLB - A.R.I. HF Contest Manager
it9blb@...

A.R.I. International DX Contest 2006
Rules for DX entrants (outside of I & IS0)

The Associazione Radioamatori Italiani (A.R.I.) has
the honour of inviting radio amateurs all over the
world to participate in the 2006 A.R.I. International
DX Contest.

AIM. Its a world-wide competition: everybody can work
everybody.

DATE and TIME. The contest will be held on each first
full week-end of May from 2000z Saturday till 1959z

Sunday. In 2006 it will be on May 6/7.

CATEGORIES:
1. Single Operator - CW
2. Single Operator - SSB
3. Single Operator - RTTY
4. Single Operator - Mixed
5. Multi Operator - Single TX - Mixed
6. SWL - Single Operator - Mixed

BANDS. 10m thru 160m (RTTY: 10m thru 80m), except WARC bands, are allowed according to IARU Band Plans. Band AND MODE can be changed only after 10 minutes you have been on it (Multi Operators only).

EXCHANGE. Italian stations will send RST and two letters to identify their province. Other stations will send RST and a serial number from 001. The serial number will NOT restart from 001 on each band/mode.

MULTIPLIERS:
1. each Italian province (110) count 1 (one) multiplier,
2. each DXCC country (except I & IS0) count 1 (one) multiplier.
The same multiplier (country/province) can be counted once and only once for band.
The 110 Italian provinces (by call-area) are:
I1: AL, AT, BI, CN, GE, IM, NO, SP, SV, TO, VB, VC.
IX1: AO.
I2: BG, BS, CO, CR, LC, LO, MB, MI, MN, PV, SO, VA.
I3: BL, PD, RO, TV, VE, VR, VI.
IN3: BZ, TN.
IV3: GO, PN, TS, UD.
I4: BO, FE, FC, MO, PR, PC, RA, RE, RN.
I5: AR, FI, GR, LI, LU, MS, PI, PO, PT, SI.
I6: AN, AP, AQ, CH, FM, MC, PU, PE, TE.
I7: BA, BR, BT, FG, LE, MT, TA.
I8: AV, BN, CB, CE, CZ, CS, IS, KR, NA, PZ, RC, SA, VV.
I0: FR, LT, PG, RI, ROMA (or RM), TR, VT.
IT9: CL, CT, EN, ME, PA, RG, SR, TP, AG.
IS0: CA, CI, MD, NU, OG, OR, OT, SS.

QSO/POINTS:
1. QSO/HRD with own country counts 0 (zero) point but is good for the multipliers credit.
2. QSO/HRD with own continent counts 1 (one) point,
3. QSO/HRD with different continent counts 3 (three) points,
4. QSO/HRD with any Italian (I & IS0) station counts 10 (ten) points.
The same station can be contacted on the same band once

on SSB/CW/RTTY but only the first QSO is good for
multipliers credit. PLEASE REMEMBER that I (Italy) and
IS0 (Sardinia Island) are NOT country-multipliers.

FINAL SCORE. The sum of QSO/points from all bands times
the sum of multipliers from all bands.

SWL. Listeners are required to log the callsigns of both
the station heard and the correspondent station. Score
is calculated based only upon the station heard using
the same rules as transmitting stations. A callsign may
not appear more than 3 (three) times as a correspondent
regardless of mode. SWLs MUST log no more than 1 (one)
QSO on each line of their log.

LOGS and SUMMARY SHEET. Separate logs are necessary for
each band. Logs must show all the QSOs data. A summary
sheet is required showing all the scoring details, class
of entry, name, callsign, full address of the applicant,
callsign of other operators and a signed declaration.
Logs must be mailed within 30 days from the end of the
contest and addressed to: ARI DX Contest, c/o ARI, Via
Scarlatti 31, 20124 Milano, Italy.
Logs on diskette are really very welcome and accepted
in substitution of paperlogs. Please send us your log
on diskette. Accepted formats are: N6TR, K1EA, EI5DI,
UA1AAF, WF1B,Writelog, Cabrillo. A printed summary
sheet must always be enclosed.
Alternatively, logs in ASCII format (or as attached files)
may be sent via e-mail addressed to <aricontest@...>.
You will receive an acknowledgement of receipt of your log
within 48 hours.

PENALTIES and DISQUALIFICATIONS. Logs will be carefully
checked by the Contest Committee and mistakes may cause a
score reduction. Disqualification may apply for: excessive
number of unmarked duplicates (more than 2%), violation of
the "10 minutes rule" (either for band and mode), excessive
declared score, log without the summary sheet. instead to
disqualify a log, the Committee may decide to penalize it
by erasing a percentage of its score.

AWARDS. A plaque with a certificate will be awarded to the
top scoring station in each class. Special plaques can be
awarded by the Contest Committee if country/continental/call-
area participation will justify the decision. A certificate
will be awarded to No. 2, 3, 4, 5 top scoring stations in
each class as well as to the top scoring stations in each
country in each class.

FREE SOFTWARE. Many free softwares are able to handle ARI DX
Contest. Take a visit to ARI DX Contest webpages for download:

<www.qsl.net/contest_ari> .

THANKS IN ADVANCE FOR YOUR ENTRY !

Прочитав вышеуказанную фразу и являясь отъявленным "буквоедом", задумался.
А какие официальные права есть у судейской коллегии и спортсменов?
Какими официальными документами они должны пользоваться? Обратился к Положению.
В нем по поводу санкций есть только:

> К зачету принимаются отчеты участников соревнований, которые провели не менее
> 30 подтвержденных радиосвязей. Судейская коллегия обязана проводить мониторинг
> чемпионатов с записью на магнитофон.
> Зафиксированные нарушения являются основанием для снятия радиостанции с зачета.

И всё.
Мы выхолостили и упростили Положение о ЧУ настолько, что введя
формат КАБРИЛЛО, перестали требовать от спортсмена титульный лист с
заверениями о выполнении требований Регламента и Положения о
соревнованиях. Мы убрали ссылку, что соревнования проводятся в
соответствии с "Правилами соревнований по радиосвязи", утвержденными
в 1997 году ЦСТРК ОСОУ и ЛРУ. А эти Правила как раз и регламентируют
работу судейской коллегии и ее взаимоотношения со спортсменом.
Кстати, отсутствие упоминания в Положении пункта о проведении
ЧУ согласно "Правил соревнований по радиосвязи" развязывает руки
судейской коллегии (отсуживаю, как хочу!), и делает возможным
"отфутболивания" протестов. Нет, например, упоминания о протестах
в Положении, а значит можно их и не принимать. До окончания судейства,
по просьбе высылается отчет конкурирующей станции(!), хотя согласно
"Правилам..." можно получить только СВОЙ отчет. И т.д.
По севастопольской "разборке". Моё личное мнение таково.
Все зависит от того, будет ли официально доказана работа UU0JX/A
из Севастополя или нет. И если он там действительно был, то его
связи должны быть засчитаны. Другое дело, что перенос не был
оформлен - ГИЭ может закрыть до года, но к ЧУ это уже не относится.
А вот если доказать, что он там не был, тогда все его связи засчитываются
согласно Положению о ЧУ. То есть, 10 очков как за ЩСО с Севастополем у всех
выпадает, но 2 очка, как просто за связь, остаются. В этом случае
личный результат UU0JX/A должен быть снят с зачета за нарушение Положения
в части структуры передаваемого номера. Я так расценил бы.

И по поводу:
> К зачету принимаются отчеты участников соревнований, которые провели не менее
> 30 подтвержденных радиосвязей.

Но, судя по преварительным итогам ЧУ CW, в зачет ниже UR3EZ (зачтено 32 QSO)
почему-то попали:
UR3EZ 26 SO80 35 70+220 290 64+210 274 0 94
US5EHR 31 SO80 34 68+200 268 58+190 248 4 92
UR5THM 35 SO80 38 74+180 254 58+170 228 8 89
UT5XA 30 SO80 32 64+200 264 52+170 222 2 84
UT5QA 28 SO80 31 60+180 240 18+90 108 30 45
UR3LTD 12 SO80 14 28+90 118 20+70 90 4 76
UR5KAT 9 SO80 16 30+110 140 18+70 88 4 62

И в других группах:
UT1DZ 25 SO160 29 58+220 278 46+180 226 6 81
UR4ZYQ 32 MO 34 66+270 336 44+190 234 10 69

И еще вопрос. А почему на вопросы к судейской коллегии отвечает Андрей
UT2UB? Он-то не имеет право быть судьей данных соревнований, поскольку
является участником и даже пререндует на первое место:
UT2UB 89 SO160 166 330+470 800 304+450 754 4 94

Впрочем, это так записано в "Правилах"... А они в Положении о ЧУ-2006
не являются обязательными для выполнения...

Утомил, наверное? ;-)
Но вот такая информация к размышлению...

Забавно! Если "за правильность и законность", то почему не закончил тест
во время, указанное в Положении - в 21-59 UTC? Это было бы неправильно?
Или незаконно ? :-)

To All

We published JARTS WW RTTY RULES OF 2006 on our website.

http://www.edsoftz.com/JARTS/

Please refer to Rules and Cabrillo Spec for JARTS contest.

Carefully read "The file name of Cabrillo file" in JARTS Cabrillo Spec.
Our robot will refuse those logs which have not your callsign in the
logfile's name. And the file extension must be cbr or CBR.

13302. The results of the UBA Contest 2006 -- SSB

Yahoo group: URcontest (2006 — 2007)
Date: 2006-05-24 09:17:28 UTC
From: Vladimir A. Gordienko
Topic: 13302 Message: 13302

Dear friends contesters,

The results of the UBA Contest 2006 -- SSB are available at the UBA website.

http://www.uba.be/hf_contests/results/2006/uba_2006_ssb.html

You will also find there a link to the rules for 2007.

There are no major changes.

However if the European Union decides to accept Romania (YO) and
Bulgaria (LZ) as members starting January 1, 2007 these 2 countries will
be additional multipliers and 3-point QSO's.

We are also working on a new log-checking program so we can import
directly the cabrillo files. Therefore we strongly encourage you to use
one of the contest programs for which you will find links in the rules.
Please help us to receive standardised logs to speed up the log-checking
procedure.

A cabrillo template is available at the rules pages. Please forward
this to the writer of the contest program you use.

Vy 73 es happy contesting

UBA HF Contest manager

Marc, ON7SS -- OO9O

Владик!
Этого пока нельзя делать, поскольку нет еще окончательных результатов.
И вообще, кого относить к "химикам" - вопрос весьма полемичный. ;-)
Вот, например, чисто теоретическая задача.
Работают, предположим в ЧУ, два известных позывных, претендующих на
весьма высокое место.
Станция А - коллективная и работает, естественно, в MOMB.
Станция В - индивидуальная и работает в SOMB.
Станция А начинает работу на 80 метрах и через определенное время
переходит на 160. Строго в это же самое время, минута в минуту,
секунда в секунду, станция В переходит со 160 м на 80 м.
И такая синхронизация у обоих станций наблюдается до конца данного теста.
Вопрос. Является ли данная ситуация "химией", если известно, что
сетап коллективной станции А позволяет работать с нескольких рабочих
мест одновременно на двух диапазонах, а в работе станции В наблюдались
сбои в контрольных номерах, характерные для N6TR и имеющие иногда
место при работе с двух и более рабочих мест?
Повторяю, вопрос чисто теоретический. Так сказать - информация для
размышления. Пока... ;-)
Если для решения данной задачи мало условий, то есть еще одно.
Но о нем я пока промолчу. А пока будем ждать окончательных
результатов, чтобы можно было запросить от судейской коллегии отчеты
интересуемых станций. В Положении это не запрещено, а прецедент уже
создан...

Здравствуйте.

> П О Л О Ж Е Н И Е

Из образца отчета:

> STXEq=TS-770E + PA ГИ-7Б - Использованная аппаратура на передачу
> SPowe=100 - Выходная мощность

> Я(Ми) засвідчую(емо),що повністю дотримувався(лись) "Регламенту
> радиоаматорського зв'язку України","Правил" та "Положення" про змагання.

Регламента любительской радиосвязи в Украине гласит:

> ПримЁтки:

> 2. Для участЁ в мЁжнародних змаганнях по радЁозв'язку за клопотанням заявника
> АРС першо© категорЁ© Центр "Укрчастотнагляд" надаⅡ дозвЁл на право роботи з вихЁдною
> потужнЁстю до 1000 Вт (на частотах до 30 МГц) и до 100 Вт (на частотах вище 30 МГц).

Надеюсь, все любители QRO давно оформили данные разрешения, поскольку
в УГЦР (бывший Укрчастотнадзор) данные заявления, как и ходатайства на
СПС, принимают не позднее 60 дней до начала работы в эфире...
Хотя там недавно сменился наш куратор. И у него есть даже позывной... ;-))

И еще. Недавно в рефлекторах обсуждался вопрос о механизме оформления
позывного с дробью A, P и др. Регламент четкого ответа не дает.
При этом возникает много недоразумений. В том числе и отсутствие на
руках документа на право работы в эфире из другой области. После моих
консультаций с УГЦР и Запорожской ГИЭ, выяснился следующий
рекомендуемый механизм.
Предположим, UR7QM хочет работать на КВ из Львова как UR7QM/A. Он обращается
не менее, чем за месяц до начала работы, с ПИСЬМЕННЫМ заявление в СВОЮ
Запорожскую ГИЭ. Там он состоит на компьютерном учете, там известно,
продлил ли он разрешение на очередной год, не закрыта ли временно его
станция за нарушения и т.д.
При положительном решении Запорожская ГИЭ выдает счет на оплату
(компьютер это позволяет сделать, поскольку на учете UR7QM у них есть)
и после оплаты выдает разрешение UR7QM/A. По своим каналам Запорожская
ГИЭ сообщает о выданом позывном UR7QM/A во Львовскую ГИЭ и службу
мониторинга УГЦР.
Мне кажется, что это правильно, поскольку UR7QM в компьютерном учете
Львовской ГИЭ отсутствует, о нем ровным счетом там ничего не известно
и даже выписать счет на оплату там не смогут. Как мне объяснили, такая
в ГИЭ программа учета, в т.ч. и радиолюбителей. Однако...

В будущем предполагается процедуру оформления внести в Регламент.
А пока так. По крайней мере, официальный документ на право работы из
другой области уже будет.

Всем удачи!

To all IARU Contest Participants - Lottery and Prizes

The WRTC2006 Contest will take place as a part of the IARU contest, giving you an opportunity to work many Brazilian Stations. The results of the WRTC2006 Contest must be ready within 35 hours after the IARU Contest, we therefore need as many IARU logs as possible and as soon as possible to verify the logs of the WRTC2006 Competitors.

All IARU Logs received direct to logs@... or via iaruhf@... within 6 hours after the contest (before 09 July 2006, 18:00 UTC) will participate in a lottery where there are 2 equal prizes: Each prize will be, free stay, maximum 4 days, for two (2) persons, it includes accommodation, food and transport to and from the airport, city tours will also be arranged. Both of the two persons do not need to be Hams, one can very well be a wife or girlfriend. The stay will be at one of the contest stations in southern Brazil, most likely one of the MN MS stations.

All IARU Logs received until we cut-off the reception of the IARU logs at the WRTC2006 Headquarters some time late Monday/ early Sunday (UTC) will in addition to participate in the lottery also be entitled to receive the following prizes. Note that the lottery has no minimum requirement of contacted WRTC2006 Stations.

Class 1 Prize: Plaque, Certificate and T-shirt. Requirement: To work all 47 WRTC2006 Stations on both modes (CW and SSB) on all bands (80-10).

Class 2: Prize: Certificate and T-shirt. Requirement: To work all 47 WRTC2006 Stations on both modes (CW and SSB) on minimum of any four (4) bands.

Class 3: Prize: Certificate and T-Shirt. Requirement: To work all 47 WRTC2006 Stations any mode on all bands (80-10).

Class 4: Prize: Certificate. Requirement: To work 25 different WRTC2006 Stations independently of mode and band.

To make it possible for us to mail you the prizes, please make sure to include a valid Post Mailing address in your electronic Cabrillo - log submittal. The logs sent to logs@..., shall follow the same requirements as logs sent to iaruhf@.... Note that all logs sent to IARU will automatically be transferred to WRTC2006 but logs sent to WRTC2006 will not be transferred to IARU. This has been done to give you the opportunity to send your log immediately to WRTC2006 but have a closer look at it before you send it to IARU.

The following WRTC 2006 stations are included: All calls PT5A - PT5Z and PW5A - PW5Z.

The 8 MN MS stations with other prefixes and the HQ stations ZW2HQ are not included.

You will automatically participate in the draw and be entitled to the prizes; the only requirement is that your log is submitted within the time limits stated above. Your Log will automatically be checked against the WRTC2006 Logs. Only correct valid contacts will count.

А, собственно, действующим Регламентом любительской радиосвязи в Украине такая работа официально и не разрешалась. Все это тянется еще со времен СССР, где хоть как-то заботились о развитии радиоспорта и в п.11.7 "Инструкции о порядке регистрации и эксплуатации любительских приемно-передающих радиостанций" (1986 г.) было записано:
"В соревнованиях по радиосвязи, требующих временного переноса любительских станций ("Полевой день" и др.), допускается совместное использование группами командами радиолюбительской аппаратуры и позывных сигналов как коллективных, так и индивидуальных станций.
Разрешение на перенос оформляется ... на имя владельца (начальника) той станции, позывной сигнал которой будет использовать команда..."
Ну и чтоб там мы не решали, тем более за столом, все это остается ППР, пока не будет зафиксировано в Регламенте.
Правда и то, что за такие нарушения в ПД Укрчастотнадзор еще никого и ни разу не наказал... ;-)
Мое личное мнение, "передрать" вышеуказанный пункт в наш Регламент один к одному, переведя соответственно на державну мову. ;-)

Приветствую!
Тут может быть разные причины постоянной Вашей отписки с рефлектора..
У меня подозрение не на спам фильтр, хотя я могу очень сильно
ошибаться...

Я так понимаю если на ваш адрес включен спам фильтр - Яху совсем должен
вас игнорирывать....

Частая отписка может сопровождаться также возратом "рефлекторных" сообщений
вашим меилпочтовиком (dc.ukrtel.net).
В yahoogroups есть такая штучка - если хоть одно письмо возращается по
какимто неизвесным причинам, то сразу происходит отписка от рассылки.

Я с таким стыкался несколько раз...

Желаю как можно быстрее решить эту проблему!

CW Keyboard

? Added pro-signs

? Support for WinKey

LOTW (and similar imports to update QSOs)

? Notes will be added to the notes for the QSO when certain fields
(CQZone, State, County, IOTA and Grid) are different from the QSO used to confirm the QSO.

? QSOs that are confirmed in the imported log that cannot be found in the existing
log will be written to a file for further analysis.

? Lookup for an existing QSO now ignores the seconds in the time field

Packet

? Fixed problem with long packet messages

? Incoming packet spots no longer change the band decoder

? Changed various entries in the dx4win.tcp file

? Added optional time field to a URL to keep packet connection alive

QSOs

? New code to determine the WPX prefix

? Corrected band from 33cm to 35cm

? Added a QSO status L (to W, L, C, S, *)

? ValidDXCC now only applies to DXCC awards

? Added more tab disabled fields (Upload, Upload Date and Upload conf

? CQZone is cleared if it was zero; made second search fail

? Upload date can be changed without the Upload flag set

? Switching between selections is faster

QSL Labels

? Individual fonts for the five custom QSL labels

? When copying a label, you will be prompted for the destination custom label

? %% no longer prints on label when a group is not selected

Radios

? Added entries for ICOM 756 Pro II and III

Hello Nikolay from Preveza in northwestern Greece,

Tks for all information, I hope to meet you on air ...
Note that I am going to stay in SV6 area till 18th of July (for Civil Aviation purposes in the airport of AKTION) I will spend my free time between sea wine and radios.
My normal QTH is Piraeus. The istallation here is under cunstruction. For the time been I have a Yaesu FT897D , Linear ZZ750 (hi hi Vlad). Two windoms in phase, a vertical and a 45 mtrs L/W are the antennas waiting for a 12mtrs tower to hang up a five band spiderbean (3 ele on 20, 2 ele on 17, 3 ele on 15 2 ele on 12 and 4 ele on 10 mtrs)
Pls inform our friends in UR that I will be active with special call SX6BJW during contests otherwise SV1BJW/6 my QSL CARDS sure via bureau farther more I am the unique CW player in all SV6 area
Also some RTTY, PSK31, PSK63 arein my QSO schedule ... So be wellcome
I read all yours in QSL.net ... FB es congratulations.
Best Rgds Vasilis

Уважаемые друзья!

В июле этого года состоятся очередные соревнования IARU HF Contest. Это не совсем обычные соревнования. Помимо индивидуальных и коллективных станций, борющихся за первенство, в них участвуют команды стран, представляющие национальные радиолюбительские организации. В соревновании стран Россию (CPP) будет представлять команда R9HQ (HQ - английское сокращение слова Headquarters - штаб-квартира).

В этом году мы добавили новую подгруппу для коллективных радиостанций - MO2T. Эта подгруппа для коллективных радиостанций позволяет работать более активно на диапазонах, увеличить количество связей и получить большее удовольствие для всех операторов при той же аппаратуре.

В 2006 году, как и год назад, команда R9HQ будет работать из 30-й зоны ITU, это Урал, 9-й радиолюбительский район. В соответствии с Правилами соревнований, штаб-квартиры могут работать одновременно на всех 6 диапазонах, от 160 до 10 метров, одновременно CW и SSB. То есть в эфире будет одновременно 12 станций под позывным R9HQ.

Успех выступления каждой из национальных команд зависит в первую очередь от активности корреспондентов, желающих провести с ней связь, и только во вторую - от потенциала станции и мастерства ее операторов. Ярким примером этого является работа восьмикратных чемпионов - немецкой команды DA0HQ, проводящей в каждом IARU контесте по 18-20 тысяч связей, причем 8-9 тысяч из них - с немецкими станциями. Результат R9HQ в прошлом году - около 8 тысяч связей, это более чем двукратный проигрыш немцам по числу связей. Однако окончательный результат российской команды всего на 20% меньше немецкого - 11.6 млн. очков против 14.1 млн. Такой неожиданный на первый взгляд результат объясняется географическим положением российской команды. Находясь в Азии, то есть на другом континенте, R9HQ получает за связь с европейскими станциями от 3-5 очков, а не 1-3 как наши конкуренты. Отсюда средняя стоимость QSO составляет у

R9HQ более 4 очков, тогда как у DA0HQ - менее 2 очков.

Было бы непростительно не воспользоваться этим географическим преимуществом, чтобы не побороться за первенство среди стран IARU (Международного Радиолюбительского Союза). Но победа не придет сама, за нее надо многое отдать. Для победы необходимо, чтобы каждый радиолюбитель, имеющий доступ к коротковолновой станции, включил ее 8 и 9 июля 2006 года, нашел в эфире нашу станцию R9HQ и провел с ней как можно больше связей на разных диапазонах телефоном и телеграфом (максимально 12 связей на каждый позывной).

Ещё один пример помощи соотечественников станции своей штаб-квартиры, это работа в IARU-контесте 2005 года польской штаб-квартирой SN0HQ. С ней сработало 1200 различных польских станций, причем почти половина (528) - на всех шести диапазонах. Из 18 тысяч связей SN0HQ провела со своими соотечественниками 8 тысяч. Вот живой пример единства радиолюбителей страны, откликнувшихся на призыв своей радиолюбительской организации PZK. Результатом этого стало второе место Польши, с микроскопическим отставанием от Германии по очкам всего на 1%.

Ниже приведены сравнительные данные по количеству радиосвязей радиолюбителей Англии, Украины, России и Польши с радиостанциями своих штаб-квартир:

GB5HQ EM7HQ R9HQ SN0HQ

QSO со своей страной: 3120 1976 1621 8203

Корреспондентов из своей страны: 1143 563 638 1201

У россиян есть громадный потенциал, так, в России, по данным портала QRZ.RU, в соревнованиях за последние 6 лет участвовало около 5500 различных российских станций. Мы рассчитываем на них как на движущую силу, способную поднять огромный пласт операторов, ни разу не работавших в контестах, но желающих поучаствовать в общем деле и показать свою причастность к российскому радиолюбительству. Работая в эфире, рассказывайте своим коллегам об этом уникальном соревновании, которое скорее можно назвать днем активности, чем настоящим контестом, приглашайте их участвовать, помогайте советом и т.д.

Если у вас нет дома станции, договоритесь с ближайшей коллективной радиостанцией или ближайшим радиолюбителем, соберитесь несколько человек и отработайте R9HQ по очереди.

Помните, что все 12 станций R9HQ будут в эфире все время соревнований, будут давать общий вызов и ждать вашего ответа на свой CQ.

Помните, что отсутствие прохождения - не повод, чтобы не слушать диапазон. В 2005 году при таком же отсутствии прохождения команда SN0HQ провела на 10-метровом диапазоне более 1200 связей только с польскими станциями!

Особенно важны диапазоны 160 и 80 м. Станции, работающие позывным R9HQ на этих диапазонах будут хорошо оснащены и с ними можно будет легко провести связь даже в светлое время суток, утром или вечером. Поэтому например станциям 4 да и 3 района не стоит толкаться вместе с западной Европой в пик прохождения на этих диапазонах, а лучше позвать R9HQ раньше или позже, используя преимущества

своего географического положения. Это позволит вам провести QSO даже используя маленькую мощность и суррогатную антенну

Возникает вопрос: можно ли проводить связи только со штаб-квартирой своей страны, чтобы не дай бог не дать очков соперникам из других стран? Правилами IARU-контеста это не запрещается, однако, вспомните о неписаных законах радиолюбительского поведения, и вы поймете, что это выходит за рамки этикета ham radio. Найдите и позовите по крайней мере еще несколько близкорасположенных станций.

Время соревнований: 12:00 UTC 8 июля - 12:00 UTC 9 июля 2006 года.
Диапазоны: 160, 80, 40, 20, 15, 10 метров.
Вы передаете: RS(T) и номер зоны ITU, например для большей части европейской территории РФ - 59 29 или 599 29.
Вы принимаете: R9HQ передает сокращенное обозначение организации - 59 SRR или 599 SRR.
Постоим за честь России!! Ждем вас в эфире, без вас не будет победы!!

Внимание: за все связи с R9HQ будет разослана красочная QSL-карточка, а 3 Региональных Отделения СРР набравших наибольшее количество связей с радиостанцией R9HQ получат 30 ценных и полезных контест призов (10 на РО СРР)!!

С уважением,

Контест-комитет СРР

Не совсем понимаю, кто кого охаивал. Только хочу напомнить, что на
последней отчетно-выборной конференции ЛРУ в обстановке большой
эйфории решили восстановить контест комитет, забрав его функции от
UCC. И когда я с трибуны конференции напомнил новоиспеченному
комитету и его председателю Андрею Казанцеву о том, что теперь вся
организация всего контестинга под эгидой ЛРУ, в том числе и HQ,
ложится на их плечи, в ответ было заявлено:
- Никаких проблем! Все будет ОК!
Так почему теперь Президент ЛРУ оказался как у разбитого корыта?

Думаю, что все утверждения в вышеуказанных двух строчках - абсолютно
верные и относятся равнозначно и ко мне! Я тоже поначалу был приятно
удивлен литературным талантом Александра Борисовича. Оказалось - плагиат

Во-первых, я напомнил о том, чтО действительно было на конференции
в присутствии более 80 человек.
А во-вторых, кроме Андрея, войти в состав контест комитета дали
согласие еще несколько человек. И если Андрей сложил с себя полномочия
председателя, то не не слышал об отставке всего комитета. Взялись - тяните!
И потом что, у нас есть каста неприкасаемых?

Простите великодушно начинающего "цифровика" за реплику, но вот вспомнилось,
что когда в начале 60-х годов Валентин Вавич UB5AC во Львове на областной
коллективке, а точнее, на ВУЦе областного радиоклуба, с помощью известного
аппарата СТ-35 начал осваивать впервые в СССР любительский телетайп, то
такого понятия как цифровая связь в тот момент у нас и в помине не было.
Я имел честь немного при этом присутствовать... И поэтому "DIGITAL" с RTTY
у меня как-то ну... не стыкуется, что ли? ;-)
Володя UT1IA, передай, пожалуйста, при случае Валентину мои самые
добрые пожелания.

В Ukrainian DX DIGI Contest попробую поработать в подгруппе SO20 LP.
Буду набираться опыта. Не всё же время ходить в "чайниках"... :-)))

Здравствуйте.

UR7QM - SO20 LP

QSOs UR EU DX Points Mults
20m 249 21 182 46 341 76

Score: 341*76 = 25916 points

TS-570D, 75 Ватт, ANT - система из 5-ти наклонных диполей.

Использовалась версия MixW 2.16.1R. К сожалению, все связи в отчете
формата Кабрилло, независимо от PSK31 или RTTY, помечены как RY. Это то,
о чем предупреждал Николай UX0FF. Придется дорабатывать отчет вручную.
Проблема небольшая. Времени много не займет по сравнению с написанием
отчета вручную на бумаге лет этак 15 назад... :-)
Или есть другие варианты?
Или нужно "скачать" другую версию?

Программа позволяет работать в реальном времени (во время теста)
или набирать отчет после соревнований. Создает бумажный и электронный
отчет, автоматически подсчитывает очки. Написана UA4NAL.
Кладете в папку ИМПОРТ свой АДИФ жмете F6,а затем F2-и отчет
готов!

Спору нет,N1MM делает отчет.Мы сами работали в сети N1MM.Но красивее
отчет у UA4NAL,все сразу видно и расстояния и кол.квадов за каждый
бенд в HTML.В N1MM кроме раскрашенной карты с неправильным
количеством квадратов,которую
даже нельзя скопировать нихрена нету.Расстояния максимальные тоже надо
самому выискивать.Проще вкинуть АДИФ от N1MM в UA4NAL,две секунды и
вся статистика как на ладоне.

Очень удобно в этих случаях использовать стрелочный S-метр. Стрелка
доходит и наматывается на правый упор. Количество оборотов в прямой
пропорциональности зависит от мощности. Один оборот - 150 Ватт... :-)))

Здравствуйте.

В сегодняшнем бюллетене #792 425DXN опубликован список штаб-квартир и их аббревиатуры. На его основании нижеследующий список преобразуте в файл, назовите его как initial.ex и введите в файловую директорию N6TR. Автоматическое появление аббревиатуры в строке контрольного номера гарантируется. Список, видимо, далеко не полный. Заранее благодарен за дополнения.
Файл уши дополняет, но не заменяет... ;-)

Не услышали меня (точнее, мои 100 Ватт SO LP CW) на 10 метрах. Хотя я принимал
баллов на 6. На остальных диапазонах 80, 40, 20 и 15 метров - достучался.
На 160 не работал вообще.
Спасибо ребятам, они сделали все, что смогли!

По разъяснению Запорожской филии УГРЦ:
1. СПС назначаются УГРЦ. Соответственно, туда идет оплата. Согласно
Прейскуранту она составляет 40.00 гривен, плюс НДС - 8.00 гривен, плюс
стоимость выдачи бланка разрешения - 6 гривен. Итого - 54.00 грн.
2. УПС выдают филии УГРЦ. Стоимость оформления согласно Прейскуранту
не изменилась и составляет: 2.00 + 0.40 + 6.00 = 8.40 грн.

P.S. Как ни пытался перекодировать, так и не понял,
что написано в Теме сообщения "... хру Й уру"? ;-)

Удачи!

Возвращаюсь к данной теме.
Всё, что написано мной выше, подтвердил куратор радиолюбителей в УГЦР
Сорокопудов Юрий Владимирович. В случае недоразумений можно звонить
ему по новому телефону (044) 422-82-91.
В Прейскуранте ст.43, поз.196 раздела 3 четко указано: "Розгляд заяви
на призначення СПЕЦІАЛЬНОГО позивного сигналу (за заяву) - 40 грн."
К оформлению УКОРОЧЕННЫХ позывных сигналов это не относится.

Subject: [CQ-Contest] ENC: Report on WRTC 2006 log checking

===8<==============Original message text===============

Dear WRTC 2006 Friends:

This report is also available on our page for download as Release 059/06

This memorandum is to record an anomaly discovered by the Judging and
Log-Checking Committees in the course of adjudication of the WRTC 2006
competition and the action taken as a result, and to offer a recommendation
for future WRTCs.

Immediately after the end of the competition at 1200 UTC on 9 July,
electronic logs began arriving from participants in the IARU HF World
Championship from all over the world for inclusion in the master database.
Thanks to the extraordinary cooperation of the international contesting
community, in a matter of hours we received more than 1,000 logs for use in
adjudication of the 46 WRTC logs.

When initial trial discrepancy reports for the 46 WRTC stations were run,
four logs were found to have unusually high numbers of "unique" QSOs. (A
"unique" QSO is one with a station that appears in few other logs - it is
not literally unique and the appropriate threshold for labeling a QSO as
"unique" may vary from one contest to another. In the case of WRTC 2006
there were, as noted above, more than 1,000 logs used to determine "uniques"
- that is, we did not limit our comparison only to other WRTC logs.)

In three of the four cases the reason for the high number of "uniques" was
clearly that the nationality of the WRTC station had been identified and
communicated within the home country of the team. The three logs in this
category were PW5B (SP7GIQ and SP2FAX), PT5P (DL6FBL and DL2CC), and PT5N
(9A8A and 9A5K). In some cases, multiple QSOs clearly had been made by the
same station under different call signs. This is contrary to the spirit of
WRTC, which is to provide a level playing field for all. QSOs that are
available to one team but not to any of the others tilt the playing field.
The purpose of WRTC is to determine the best operators, not who has the most
friends back home. At the same time, it must be said that the WRTC
competitors do not do anything wrong unless they do something that is

intended to identify themselves. They are not expected to disguise their voices or their accents. So, in past WRTCs these "national uniques" have not been deleted from competitors' logs.

The fourth case, PT5L (YT6A and YT6T), was quite different. In this case there were hundreds of "uniques" with call signs from many countries, nearly all of them in Europe, beginning about two hours into the event. Not only that, but many of these "uniques" showed up on several bands, in some cases on both CW and SSB. Only rarely did these "uniques" show up in any other logs. The referee, G3XTT, confirmed that he had heard nothing suspicious or unusual. Most of the call signs were not familiar to the judges as appearing in CW contests, but this was apparent only when the "uniques" were identified as such and this was not especially noticeable when they were scattered among valid QSOs.

The audio from this station had been recorded, so it was possible to confirm that the QSOs had in fact taken place. It appeared to the judges, from listening to the recording while examining annotated log extracts identifying the "uniques," that there was a small number of stations, probably more than one, feeding "phantom QSOs" to PT5L. Again, however, this was apparent only in retrospect.

The motive for feeding these "phantom QSOs" was and is unknown. PT5L had only operated CW up to the time the "uniques" began to appear; we have no evidence that the identity of the operators had been communicated to anyone prior to that time, either by the operators themselves or by anyone else.

Identifying "uniques" is a standard part of the adjudication of any contest. Detecting QSOs added to a log "from the Callbook" was one of the very first objectives when computer analysis was first performed on contest logs. Anyone familiar with UBN or LCR reports - in other words, any active contester - would realize that adding such QSOs to the PT5L log was bound to come to the attention of the judges. Therefore, in the absence of any evidence to the contrary, the judges could not conclude that the operators of PT5L were implicated in any way. They had to know that such manipulation would be detected and that there could be no acceptable explanation for so many people choosing, independently of one another, to work only PT5L from among more than 1,000 stations active on the bands during the contest.

It seems much more likely that the "phantom QSOs" were intended to be sabotage, either of the PT5L operators specifically (although this would have required knowing who they were) or of a WRTC station selected at random. Such behavior, by amateur operators outside the WRTC event itself, is both reprehensible and illegal and deserves to be thoroughly investigated. However, doing so within the time frame of the WRTC event was impossible.

Thus, the problem facing the judges was how to deal appropriately with the situation within the context of WRTC itself. It was decided to reduce the threshold for labeling a QSO as "unique" to a relatively low number of logs and to delete from all 46 logs, without penalty, all "unique" QSOs. Doing so resulted in the deletion of, at one extreme, just 3 QSOs from a log

containing more than 1,900 QSOs to, at the other extreme, the deletion of 240 QSOs from the PT5L log of more than 2,300 QSOs. Most logs lost about 15 QSOs. No doubt a few of these were valid QSOs (others are busted calls where there is insufficient evidence to label them as busted). However, deleting them is very unlikely to change the relative positions of any teams with "normal" logs and definitely did not affect the top three positions, which is the principal concern of the judges, other than to move PT5L out of 3rd place. PT5L moved from 3rd to 11th place, some of this movement the consequence of error rate. (If the intent of the "phantoms" was to hurt the PT5L entry they certainly succeeded; the operators spent more than two hours working stations for which they received no credit.)

The impact was much greater on the three logs with significant numbers of "national uniques" (which were also a very minor factor in the PT5L log - among the 240 "uniques" are just 9 "national uniques" that showed up very late in the contest after the operators were identified on the BalkanDX Yahoo forum at 1024 UTC). PW5B lost 125 "uniques" and moved down five positions, from 11th to 16th, some of this movement the consequence of error rate. PT5P lost 76 "unique" QSOs but actually moved up one position in the final results because their error rate was lower than average. PT5N lost 67 "uniques" and moved down one position.

While it is unfortunate that the operators of these four stations all spent time making QSOs for which they received no credit, the judges and log-checkers firmly believe that the appropriate remedy was applied to correct an unanticipated situation. Disqualification would have been inappropriate in that there is no proof - indeed, there is no evidence at all - that any of the operators were at fault. On the other hand, allowing "phantom QSOs," once detected as such, to be credited also would be inappropriate and would make the whole WRTC event pointless. The same standard was applied to all 46 logs.

The judges and log-checkers recommend that in future WRTCs, all "uniques" should be removed from logs without penalty and that this policy should be announced in advance. All stations operating in the IARU HF World Championship should be encouraged to work all WRTC stations, without favoritism and without using more than one call sign from any station (unless family members share a station).

We also recommend that "unique" not be precisely defined in advance. The judges must be allowed discretion to determine the appropriate threshold for "uniques" for a given event, as this will depend upon the number of logs available for crosschecking and other factors.

While we regret that this attempt to manipulate the WRTC results occurred - for whatever reason the perpetrators may have had - we are pleased to have detected it and to have been able to take appropriate corrective action.

The judges would especially like to thank Larry "Tree" Tyree, N6TR, for his analysis and Phil Goetz, N6ZZ for his invaluable contribution in uploading the WRTC logs and maintaining the communication link between the judges in Florianopolis and Tree at his home in Oregon. Trey Garlough, N5KO, also

contributed significantly to the log-checking process from his home in
California, as did Larry Hammel, K5OT, on-site.

Respectfully submitted,

Judges: Log-Checking Committee:
David Sumner, K1ZZ Larry "Tree" Tyree, N6TR
Roger Western, G3SXW Phil Goetz, N6ZZ

Hello, господа и пановэ!

Установил на свою голову лицензионный XP!
Все якобы ничего, пока дело не дошло до домашней
сети! Все стало, скушало адреса, видят компьютеры
друг друга, а до дисков добраться не могу, просит
User name & password! Откуда они взались!
Если мне не изменяет память, то кажется в рефлекторе
упоминалось о программе которая "выгребает" все пароли
и явки из Винды! Может кто что подскажет?

Луганская область,имеющая меньшее отношение к Донбассу,тянет этот
тест.Донецк хотя бы пальцем в носу ковырнулся.Пока ковыряется

1.Почему новый?
Наверное, точнее будет "...Устав ЛРУ с изменениями и дополнениями,
принятыми на последних конференциях Лиги".
2.И почему утвержденный Министерством Юстиции Украины?
По крайней мере, раньше Минюст только регистрировал Уставы
общественных организаций и согласовывал их при внесении изменений
и дополнений.
<<Зареєстровано Міністерством юстиції України 3.09.1992 р.

Однако ждем на сайте и дружно начнем читать! ;-)))

Hello, URcontest.

Любі друзі!

Предлагаю поддержать нашу державу в
национальном зачете EU HF Championship!

Ще нэ вмэрла Украина!
Она только начинает жить!

European HF Championship
Страна: Словения
Учредитель: Slovenia Contest Club
Страница в Интернет: http://lea.hamradio.si/~scc/

Начало:05 августа 2006 г. в 12:00 UTC
Завершение:05 августа 2006 г. в 24:00 UTC
Ежегодно в первую субботу августа.
Виды модуляции:CW, SSB
Диапазоны:160 м, 80 м, 40 м, 20 м, 15 м, 10 м

КЛАССЫ
Только один оператор, все диапазоны.
Подгруппы:
I. CW/SSB -high power (выходная мощность до 1500Вт.);
II. CW/SBB -low power (до 100 Вт);
III. CW-high power;
IV. CW-low power;
V. SSB-high power;
VI. SSB-low power.

Разрешается излучать единственный сигнал в любой момент времени.
Проведение CW-связей в SSB-участках диапазонов и проведение
SSB-связей в CW-участках диапазонов не разрешается. Не разрешается
работа в DX-участках диапазонов. Только одно лицо выполняет все
действия по проведению связей и ведению аппаратного журнала. Одна
любительская радиостанция должна использовать единственный позывной
сигнал в зачетное время. Использование DX-кластера, сетей и любых
других средств оповещения не разрешается.
Станция может менять рабочий диапазон не чаще 10 раз за один полный
календарный час (например с 11:00 до 11:59). В категории CW/SSB
(смешанной) допускается максимум 10 изменений диапазона и вида
работы за час (например: 5 переходов с диапазона на диапазон и 5 раз
изменение вида работа, при этом одновременная смена и диапазона и
вида работы считается как одно изменение). QSO, проведенные после
10-го перхода, будут удалены из отчета.

КОНТРОЛЬНЫЕ НОМЕРА
Передается RS(T) и двухзначный номер, соответствующий последним цифрам года, в котором участник впервые получил официальную радиолюбительскую лицензию. Например, 599 82 или 59 82 означает, что оператор впервые получил лицензию 1982 году. Участники, работающие с клубных станций, а также гость-операторы (работающие со станций других любителей), передают две цифры, обозначающие год получения их первой собственной лицензии.
Общий вызов в соревнованиях: "CQ EU" телеграфом и "CQ EUROPE" телефоном.

ОЧКИ
За радиосвязь начисляется 1 очко. С каждой станцией на диапазоне можно провести по одной связи телефоном и телеграфом.

МНОЖИТЕЛЬ
Начисляется за каждую новую пару цифр в принятом контрольном номере, один раз для каждого диапазона, вне зависимости от вида работы.

ПОДСЧЕТ РЕЗУЛЬТАТА
Произведение суммы очков на сумму множителей.

НАГРАДЫ
Чемпионы Европы (победители в своих подгруппах) будут награждены плакетами (см. примечание по оформлению отчетов). Судейская коллегия оставляет за собой право наградить дипломами определенное количество участников во всех категориях.
Национальное соревнование. Будет опубликован отдельный список стран с указанием национальных результатов (суммы результатов всех участников из одной страны DXCC, принадлежность к клубам роли не играет).

ОТЧЕТЫ
Отчеты должны содержать следующие данные о радиосвязях: диапазон, вид работы, время UTC, позывной, переданный и принятый контрольные номера. Отчет составляется в хронологическом порядке, без разбивки по диапазонам и видам работы. Рекомендуется указывать точную рабочую частоту в колонке "диапазон". ТОЛЬКО УЧАСТНИКИ, УКАЗАВШИЕ В ОТЧЕТАХ ТОЧНУЮ ЧАСТОТУ, МОГУТ ПРЕТЕНДОВАТЬ НА ПЛАКЕТЫ. Всех, кто использовал компьютер для подготовки отчета, или установившие более 200 QSO, должные представить отчет в виде компьютерного файла.
Предпочтительный формат - CABRILLO, однако может быть и любой текстовый ASCII формат (в этом случае посылается два файла: callsign.sum и callsign.log).
В случае отправки бумажного отчета обязателен обобщающий лист, содержащий все необходимые данные для вычисления результата, описание использованной радиостанции, выходную мощность, имя и адрес оператора, год выдачи первой лицензии (все заглавными печатными буквами), а также подписанную декларацию о соблюдении правил соревнования.
Настоятельно рекомендуется отправлять отчеты по e-mail!

АДРЕС ДЛЯ ОТПРАВКИ ОТЧЕТА
Slovenia Contest Club,
Saveljska 50, 1000 Ljubljana, SLOVENIA
На конверте укажите "EU HF CHAMPIONSHIP" и свою зачетную группу.
E-mail: euhfc@...
Домашняя страница: http://lea.hamradio.si/~scc/

СРОК ОТПРАВКИ ОТЧЕТА
31 августа 2006 г. (по штемпелю)

РАЗРЕШЕННЫЕ КОРРЕСПОНДЕНТЫ
Участвуют только радиолюбители стран Европы.

УСЛОВИЯ ДИСКВАЛИФИКАЦИИ
Нарушение правил соревнования, неспортивное поведение, высокий процент непроверямых QSO, могут быть достаточным условием для дисквалификации участника. Дисквалифицированный участник не может быть допущен к зачету в EU-HF в следующем году.
Неотмеченные повторные связи, неправильные позывные или контрольные номера, а также связи, которые отсутствуют в отчетах корреспондентов, аннулируются и дополнительно штрафуются снятием 1 очка (за QSO) за каждую такую ошибку. Если количество таких связей превысит 10%, участник снимается с зачета. Другие причины, такие как непредоставление компьютерных файлов либо неполная требуемая от участника информация, также могут привести к снятию с зачета.

I''m pleased to announce that the full writeup for the 2006 ARRL DX Phone contest is now open to ARRL members at http://www.arrl.org/members-only/contests/results/2006/dxphone/ . As soon as the September QST is published in a bit over two weeks, the Web writeup will be available to everyone. ARRL members can also download printable line scores in the time-honored magazine format.

Happy reading - lots of close races, records set, new calls in the Top Ten and the usual excitement of a big contest! There's a sidebar about your favorite Tasmanian - VK7GN, too. Thanks also to the regional authors that generated detailed analysis for ARRL Divisional and continental results.

13829. Fw: [CQ-Contest] 2006 CQ WW 160 Claimed Scores Posted

Yahoo group: URcontest (2006 — 2007)
Date: 2006-08-11 07:40:00 UTC
From: Vladimir A. Gordienko
Topic: 13829 Message: 13829

The 2006 CQ 160 claimed scores have been posted on the CQ Magazine Web site.
Go to:

http://www.cq-amateur-radio.com/

Then click on contest rules and Info
Then CQ World Wide 160 Contest

Remember the Multi Station Operators and Guest Operators are the extended
results for the 2005 contest.

The Top 400 scores are shown. I have since found one log with a big score
and added one log that was initially rejected.

Please make sure that your log is actually acepted. getting a reply from
the robot is valid only if you get a confirmation number. And please make
sure the logging program plugs in the claimed score. The claimed score is
used to assure the log is within metrics.

If you do not find your log (make sure its within the scores listed) please
e-mail me at k4jrb@juno not this address!

А может дружно попросим уважаемого Николай Петровича
"повернуться лицом" к рускоговорящим пользователям и
попросим его написать поддержку Кубка Днепра в его

Hello, Любі друзі.

Выдержка из положения:

Для пользователей программы MIXW2 предлагается использование макроса
<WKDPERIOD:30>, который нужно вписать в любую кнопку и нажать ее после
запуска программы, чтобы работало отслеживание повторов через 30 минут.

Не нашел этого макроса в макрокомандах MixW2 ver. 2.17.
Вопрос:
Где в природе существует полный список макрокоманд с
коментариями?????

Dear fellow contesters,

You are invited this week-end (26/27 August, from 12:00 UTC to 12:00 UTC) to have a go in YO DX HF Contest.
It is a world wide type competition, CW and SSB modes, on 3.5 to 28 Mhz (no WARC bands), where you can compete for the first place and trophy, or you just can have fun, chasing new stations and eventually qualify for a free award.
Romanian Amateur Radio Federation (FRR) will issue the special award "ROMANIA" to encourage amateur radio stations around the world, to participate in YO-DX-HF Contest. The award is free of charge and can be obtained just by working in 2006 contest, minimum 100 QSO-s, including 10 different YO calls. Please send the Cabrillo log to: yodx_contest@... or to yodxhf@... and do not forget to mention your address.

The contest categories are SO/AB, SO/SB and MO/AB.
The exchange is classic: RS(T) + Serial number. The YO stations will transmit RS(T)+ 2 letters (county abbreviation).

There are several contest programs supporting our contest: N1MM-Logger, Writelog, Win-Test, SD, TR-log, RCK-Log, Lux-Log, MHR-Log, etc.

You can find the complete rules here:
http://www.radioamator.ro/contest/us/yodxhf2006rules.html

For those interested, the results of 2005 YO-DX-HF Contest are posted on page:
http://www.radioamator.ro/contest/us/results-yo-dx-hf-2005.html

Good luck!
Alex, YO9HP (YR9P - A45WD)

Здравствуйте.

Не мешало бы уточнить в данном Положении, какие именно области
входят в Донбасс. По моим сведениям - Донецкая, Луганская и
Днепропетровская. Или не так?
И какую букву C или S будут передавать строители шахт? По Положению не
ясно.

Dear friends contesters,

The results of the UBA Contest 2006 - CW are available at the UBA website.

http://www.uba.be/hf_contests/results/2006/uba_2006_cw.html

You will also find there a link to the rules for 2007.

There are no major changes.

However if the European UNION decides to accept Romania (YO) and Bulgaria (LZ) as members starting January 1, 2007 these 2 countries will be additional multipliers and 3-point QSO's.

We are also working on a new log-checking program so we can import directly the cabrillo files. Therefore we strongly encourage you to use one of the contest programs for which you will find links in the rules. Please help us to receive standardised logs to speed up the log-checking procedure.

A cabrillo template is available at the rules pages. Please forward this to the writer of the contest program you use.

Vy 73 es happy contesting

Спасибо за Welcome!
Но прежде чем вступать, хотелось бы посмотреть куда. Как человек,
прослывший в кругах ЛРУ бюрократом, хотел бы ознакомиться с уставом.
Может там такие условия, что были мне под силу лишь лет так 15-20 назад.
Тогда я был еще вполне молодым и здоровым. Мог запросто отработать 24
часа в контесте без перерыва и тогда, к примеру, бутылка водки для
меня была, что слону дробина.
Сейчас другие времена... ;-)

Hello, ContestRU.

Всем, кто собирается попробовать себя в PSK63
могу выслать epc.dom для MixW.
Все очень просто.
Не выбираем файл статистики, но выбираем рег. индекс epc.dom,
правда очки придется считать вручную, и сделать несколько
пробелов в кабриле.
Это образец с сайта

EPC PSK63 QSO Party - Условия 2006
Спонсор: EPC - Европейский PSK Клуб
Вебсайт: www.eu.srars.org
Электронный адрес: eudx@...

ДАТА И ВРЕМЯ

Европейский PSK Клуб приглашает всех радиолюбителей мира к участию в международных соревнованиях на КВ – EPC PSK63 QSO Party, которые будут проходить с 00:00 до 24:00 UTC 19 ноября 2006 года. Всего 24 часа зачетного времени.

ЦЕЛЬ

Основная цель проведения соревнований – проведение как можно большего количества радиосвязей в режиме BPSK63 на КВ. Участие в соревнованиях проходит по принципу – «каждый может работать с каждым», независимо от географического расположения участника и принадлежности к клубу EPC.

ДИАПАЗОНЫ И ЧАСТОТЫ

Засчитываются радиосвязи на 160, 80, 40, 20, 15 и 10 м. В скобках указаны рекомендуемые частоты для работы в соревнованиях - 160 м (1838...1840 КГц), 80 м (3582...3584 КГц), 40 м (7037...7039 КГц), 20 м (14072...14074 КГц), 15 м (21082...21084 КГц) и 10 м (28082...28084 КГц). Засчитываются радиосвязи только в режиме BPSK63.

ОСНОВНЫЕ УСЛОВИЯ

Никто из участников не должен превышать лимит излучаемой мощности 100 Вт. Все передатчики и приёмники должны быть расположены в пределах круга 500 м или в пределах частной территории владельца радиостанции. Все антенны, используемые участником в соревнованиях, должны быть физически соединены проводными или коаксиальными линиями с используемыми передатчиками или приёмниками. Только один позывной участника должен использоваться в соревнованиях для заявления на результат. Всем участникам разрешается использовать только открытые сети DX оповещения, такие как пакет или веб кластеры. В данных соревнованиях существует только одна зачётная категория – SOAB (Один Оператор – Все Диапазоны). Каждый участник должен самостоятельно работать в эфире, вести лог и следить за сетью DX оповещения, без чьей либо помощи. Излучение только одного сигнала разрешается в определённое время. Оператор может менять диапазон в любое время.

НОМЕРА ОБМЕНА

Члены EPC клуба передают рапорт и свой членский номер (пример – 599 EPC012). Участники из других стран мира передают рапорт и порядковый номер связи, начиная с 001 (пример – 599 001). Просьба для членов клуба EPC передавать свой номер слитно, без каких-либо пробелов или знаков между «EPC» и самим номером, при этом сам номер должен состоять из трёх цифр. То есть передаваемый номер для членов EPC клуба состоит из шести знаков, передаваемых одной группой, где первая часть всегда «EPC», а вторая – три цифры членского номера. Если членский номер состоит из 1 или 2-х значного числа, то соответственно добавляются нули – EPC002, EPC036, EPC367 и так далее.

НАЧИСЛЕНИЕ ОЧКОВ

Радиосвязи с членами клуба EPC дают по 5 очков, радиосвязи с другими участниками соревнований дают по 1 очку. Повторные радиосвязи засчитываются на разных диапазонах.

МНОЖИТЕЛЬ

Множителем являются разные EPC номера на каждом диапазоне.

ИТОГОВЫЙ РЕЗУЛЬТАТ

Итоговый результат для всех участников подсчитывается следующим образом – общая сумма очков за проведённые радиосвязи умножается на суммарное количество EPC номеров сработанных на каждом диапазоне.

НАГРАДЫ

Участники, занявшие первое, второе и третье места в своей стране или первое место на своём континенте, будут награждены соответствующими сертификатами, которые выполнены в PDF формате с большим расширением для качественной печати. Сертификаты будут отправлены победителям через email. Победитель, занявший первое место в мире, будет награждён специальной плакеткой – EPC PSK63 World Plaque. Результаты соревнований будут опубликованы на официальном вебсайте EPC клуба. Если несколько участников набрали одинаковое максимальное количество

очков, то каждому будет выдан диплом, но с убывающей степенью, где преимущество имеет тот, кто набрал наибольшее количество множителей. Все награды оформляются на имя и позывной участника, коллективным участникам – на имя клуба и позывной клубной радиостанции, использовавшийся в соревнованиях. Дополнительно учреждено ещё 12 плакеток за первые места в следующих географических регионах: Европа, Азия, Северная Америка, Южная Америка, Африка, Океания, Великобритания, Скандинавия, Россия, США, Канада и Япония. Эти плакетки являются платными, и могут быть заказаны по желанию победителей через менеджера EPC клуба. Любой радиолюбитель или радиолюбительский клуб может дополнительно учредить свой персональный приз для соревнующихся. Для регистрации приза достаточно связаться с менеджером EPC клуба.

ОФОРМЛЕНИЕ ОТЧЁТОВ

Время должно быть указано в UTC. Все принятые и переданные рапорта должны быть зафиксированы в отчёте. Просьба не удалять повторные радиосвязи из отчётов, штрафные очки за них не снимаются. Комитет соревнований принимает только электронные отчёты в формате Cabrillo. Бумажные и отчёты в других форматах не принимаются! Образец Cabrillo файла можно посмотреть на вебсайте EPC клуба. Отчёты высылаются на eudx@... где поле «Subject (Тема)» электронного письма должно содержать позывной участника. Файл отчёта должен быть также назван позывным участника (например – mm0dgr.cbr). Необходим файл только основного лога, никаких отдельных суммарных файлов присылать не требуется. Все электронные отчёты автоматически подразумевают тот факт, что участник соревнований чётко соблюдал условия соревнований и требования своей радиолюбительской лицензии. Другими словами, если участник высылает свой электронный отчёт, он даёт тем самым подтверждение своего корректного участия в соревнованиях. Отчёты должны быть отправлены не позднее 30 дней после окончания соревнований.

ДИСКВАЛИФИКАЦИЯ

Нарушение требований лицензии участника или данных условий соревнований, неспортивное поведение, слишком большое количество неподтверждённых радиосвязей и множителей – предусматривают дисквалификацию. Неправильно принятые и записанные в отчёт позывные корреспондентов будут квалифицироваться как неподтверждённые. Участники, инициирующие установление радиосвязей с собой с помощью телефона, телеграмм, интернета, пакетной связи или обычной связи через УКВ, также подлежат дисквалификации. Все действия и решения комитета соревнований являются официальными и окончательными.

Hello ,

The World Radiosport Team Championship Sanctioning Committee (WRTC-SC) is pleased to announce that in 2010 WRTC will be held in Russia for the first time! The Soyuz Radiolyubitelei Rossii (SRR) is the primary sponsoring organization. SRR President, Roman Thomas RZ3AA, is the host committee chairman. The event will be held near Moscow and coincident with the IARU HF Championship in July. The committee plans to publish qualification rules and procedures as quickly as possible and a special WRTC-2010 Web site will soon be available. The WRTC-SC would like to thank all of the Russian team for the hard work preparing their proposal and for the planning that has already taken place. Congratulations and good luck!

On behalf of the WRTC-SC,

73, Ward N0AX

А чё, вести лог на бумаге и смотреть на часы со стрелками уже слабо?
Стареем, Костя! ;-)
Программа для минитестов Бориса UA1AAF может отслеживать повторы в
любом заданном интервале времени, но, к сожалению, не воспринимает
контрольные номера, содержащие буквы. Жаль!
Говорят умные люди, что в MixW записывают в любую свободную
функциональную клавишу макрос <WKDPERIOD:30> и "жмут" после перевода
программы в режим соревнований. Сам не пробовал пока.
Но в CW я лично предпочитаю N6TR...

Hello, любі друзі.

Есть ли у кого описание макроса <WKDPERIOD:30> в MixW2 или где об этом можно почитать? Я не нашел его ни в макросах программы, ни в хэлпах. У меня v. 2.17. Может уважаемый автор MixW2 откроет тайну,где можно почитать о макросах его программы? У меня есть пару .pdf от наших зарубежных коллег - там ничего о таком не сказано.

Или объяснил, как его правильно применить в кубке Днепра.
Потому, что такого БРЕДА (интервал 30 мин. от проведенного
ранее QSO) нет ни в однол тэсте, акромя кубка Днепра (с
изюминкой?).

From: Vladimir A. Gordienko

Hello!

This e-mail is to invite all contesters to have a go in the European
Sprint contests 2006.

Please remember that, starting this year, the time has been moved
1 (one) hour ahead. The four Sprints will begin at 16:00 UTC and
will end at 19:59 UTC.

If you're wondering which software to use, DL2NBU's program has
been written specially for this contest. It is very much like K1EA's CT,
and it is FREE for download from the new Eu Sprint web
site <http://www.eusprint.com/>.
SD by EI5DI, TRLog by N6TR, WriteLog, Win-Test, N1MM Contest Logger
(and many others) all support the Eu Sprint, and if you prefer to log
on paper, that's fine as well. We accept any fixed column ASCII
file, too.

So, we hope you will give the Sprints a try in October, and then send
your logs to <eusprint@...>. The full Eu Sprint rules are shown
below.

73 from the EU Sprint Gang
G4BUO, I2UIY, OK2FD & 9A6XX

About Eu Sprint:
- download the FREE software,
- rules in English, Italian, French, Spanish, Portugese, Russian, Czech,
German, Polish, Greek, Croatian
- all past results from 1994,
- download full logs and ubn reports,
- all time records,
- find more information about Log Checking,
- and much more about the Eu Sprint....
You will find everything here: <<http://www.eusprint.com/>>

Eu Sprint Contest - 2006

ENTRANTS: any licensed station may enter the Sprint. European stations can
work everybody; stations outside of Europe can work only European stations.

CATEGORIES: Single Operator ONLY. Only ONE signal may be aired at one
time. Low Power entries (up to 100W) will be indicated by an asterisk (*) in
the listing.

DATES:
EU SPRINT Autumn:
* SSB: first Saturday in October - 7 October 2006 - managed by I2UIY
* CW: second Saturday in October - 14 October 2006 - managed by OK2FD

TIME: from 16:00 UTC until 19:59 UTC.

BANDS: 20, 40 and 80 metres only.
Pilot frequencies are: SSB: 14.250, 7.050, 3.730. CW: 14.040, 7.025, 3.550

EXCHANGE: all of the following data MUST BE PART OF THE EXCHANGE:
a) your callsign,
b) the other station's callsign,
c) your serial number starting from 001 (RST not required),
d) your name or nickname.
Please note that BOTH stations MUST repeat BOTH callsigns DURING the exchange.
A valid exchange is: "OK2FD de I2UIY 118 Paolo" while "OK2FD 118 Paolo" is NOT a valid exchange.

SPECIAL QSY RULE: if any station initiates a call (by sending CQ, QRZ?, etc.), he is permitted to work ONLY one station on the same frequency. He must thereafter move AT LEAST 2 (two) kHz before he may call another station or before he may solicit again (CQ, QRZ?, etc.) other calls.

VALID CONTACTS: valid contacts are QSOs correctly logged and confirmed. Each operator may use ONE and ONLY one name during the Sprint. If the exchange is copied incorrectly, that operator will receive zero (0) points. In case of miscopied callsigns, both stations will receive zero (0) points for that QSO.

SCORING: each valid QSO counts one 1 (one) point. The final score is the total number of QSOs.

AWARDS: Colorful certificates will be issued to the winners of each Sprint, and to the leaders in each country.

EU SPRINT PLAQUE: A special plaque will also be awarded for the top three scores from all four contests combined. To be eligible for this award an operator must enter at least three of the Sprints in the year. Results will be forwarded as soon as possible to Leagues, magazines and bulletins.

LOGS: a single chronological log is required. Please send us your log via email or on a floppy disk, if you use computer for logging. Use any of the available software or send a plain ASCII file. Eu Sprint is supported by all the major software (N6TR, Writelog, Win-Test, N1MM, SuperDuper and many others; see the software information on our webpage).
If you want the latest release of the DL2NBU software, you can download it from the new EU Sprint web site: <<http://www.eusprint.com/>>.
Log files must be sent NO LATER than 15 days after the contest to: <eusprint@...>. The receipt of your electronic log will be immediately confirmed. If you do not receive a confirmation within few hours, try again

or use the postal system.
Disk logs, or paper entries must be posted NO LATER than 15 days after
the contest to the appropriate address:
* Autumn SSB Sprint: Paolo Cortese, I2UIY, P. O. Box 14, 27043 Broni
(PV), Italy.
* Autumn CW Sprint: Karel Karmasin, OK2FD, U Oburky 1007, 674 01
Trebic, Czech Republic.

Thanks in advance for your participation de: G4BUO, I2UIY, OK2FD & 9A6XX.

Да, впечатляет, аднака :)
Рома, фотку разрешишь в качестве обоев на рабочий стол юзать??
А то большие снимки трудно найти, вот уже год сотрудники и мимо ходящие
смотрят на позицию, кажется, PS2T и не устают спрашивать, что это :))
Можно будет с гордостью отвечать, что "наши", а не ссылаться на Бразилию какую - то :)
"Популяризация радоспорта" своего рода, ну а я вижу всё время, для какой цели собсна
работаю :)

Прикрепленные файлы: <none>

Hi all !
Всем доброго вечера!
Господа,формируются несколько команд для участия в EPC PSK63 Party,которые будут проводиться 19 ноября с.г..
Любители цифровых видов связи желающие создать новую либо войти в одну из уже утвердившихся команд просьба высылать в мой адрес заявку.Список и состав команд вышлю по запросу.
В частном порядке срочно требуется нормальный оператор(PSK63) с восточно-сибирского --- дальне-восточного региона в команду ,,Tornado,,.
p.s.Внимание-колличество мест ограничено.Заявки до 1 ноября 2006 включительно.
Игорь UA3QDX

---------- Конец пересылаемого письма ----------

Коротко. Команда для участия в EPC PSK63 Party формируется из 5 любых операторов и заявляется в оргкомитет не позднее, чем за 48 часов до начала. Команда может вызвать официально на "бодаловку" другую команду.
В этом случае, победившие получают бонус +500 очков в общекомандном зачете и каждый член команды бутылку настоящего шотландского виски.
Проигравшие - минус 500 очков и очень большую благодарность за участие. ;-)
Более подробно - к Юрию MM0DFV eupskclub@...

Здравствуйте.

Обращаюсь во все доступные мне источники информации - звоню во все колокола. ;-)

СРОЧНО!!! Время не терпит!

Позвонили сегодня из УГРЦ. Там новые веяния. Теперь для выписки счетов для оплаты за СПС заявителю необходимо представить свой идентификационный код! Без него бухгалтерия УГЦР выписывать счета не будет. Это для индивидуальных ЛРС.
Для коллективных:
- при оплате по перечислению предприятием, которому принадлежит коллективка, предоставляется код ЄРДПОУ данного учреждения (потом, видимо, потребуют еще копии свидетельств о регистрации и плательщика налога - ЩМ);
- если оплачиваете сами, то представляете идентификационный код начальника коллективки. (Это проще - ЩМ)
Счета на 50 гривен 40 копеек будут направлены каждому заявителю на указанный им адрес для переписки, но только после получения бухгалтерией УГЦР этих самых кодов.
Оплачивать лучше через филиал банка, указанного в счете.
Так гораздо быстрее. Очень долго - почтовым переводом.

В нашем распоряжени 5 дней. Поэтому, убедительная просьба не счесть за труд и сообщить всем заявителям об этом новшестве и СРОЧНО сообщить мне данные коды по электронной почте или по телефону:
д. 061-9-43-35-00 или моб. 067-766-12-09

Повторяю список заявленных СПС:
1. EM15F - UR5FEO

Дорогой Александр!
Я предлагаю Вам не тратить деньги на призы , и не веселить публику.
Вы лучше напечатайте QSL-карточки, и разошлите своим корреспондентам.
Я думаю Ваша QSL будет лучшим призом каждому, кто с Вами свяжется!

Я это пишу потому, что с 2001 года за 25 QSO с US2IZ я, к примеру,
не получил ни одной QSL.

И это не приказ а просьба. "Лучше один раз увидеть чем 10 раз услышать"
(Это об QSL и QSO)

Subject: WRTC 2010 Selection criteria

Dear friends,
some times ago we began to observe experience of previous WRTC'es to prepare selection criteria, including selection parameter factor, for WRTC-2010. This job
will take some time. Anyway, today I'm sure that both 2006 CQWW Contests will have top rank among other annual contests in terms of selection procedure.
So, take it, please, in your mind.
Best regards,
73s Roman, RZ3AA

Здравствуйте.

Вынужден повторить. За 5 дней сведения поступили только от половины
заявителей СПС. Список не представивших - ниже.

A> Здравствуйте.

A> Обращаюсь во все доступные мне источники информации - звоню во все
A> колокола. ;-)

A> СРОЧНО!!! Время не терпит!

A> Позвонили сегодня из УГРЦ. Там новые веяния. Теперь для выписки
A> счетов для оплаты за СПС заявителю необходимо представить свой
A> идентификационный код! Без него бухгалтерия УГЦР выписывать счета
A> не будет. Это для индивидуальных ЛРС.
A> Для коллективных:
A> - при оплате по перечислению предприятием, которому принадлежит
A> коллективка, предоставляется код ЄРДПОУ данного учреждения
A> (потом, видимо, потребуют еще копии свидетельств о регистрации
A> и плательщика налога - ЩМ);
A> - если оплачиваете сами, то представляете идентификационный код
A> начальника коллективки. (Это проще - ЩМ)
A> Счета на 50 гривен 40 копеек будут направлены каждому заявителю на
A> указанный им адрес для переписки, но только после получения бухгалтерией
A> УГЦР этих самых кодов.
A> Оплачивать лучше через филиал банка, указанного в счете.
A> Так гораздо быстрее. Очень долго - почтовым переводом.

A> В нашем распоряжени 5 дней. Поэтому, убедительная просьба не счесть
A> за труд и сообщить всем заявителям об этом новшестве и СРОЧНО сообщить
A> мне данные коды по электронной почте или по телефону:
A> д. 061-9-43-35-00 или моб. 067-766-12-09

Дорогие коллеги!
Исполкомом ЛРУ решен вопрос с УДЦР относительно использования участка 7100-7200 ТОЛЬКО в период проведения CQ WW SSB contest 28-29 октября 2006 года радиолюбителям Украины имеющим 1 категорию(мощностью до 200 Вт). УДЦР будет осуществлять контроль подразделениями мониторинга за осуществлением данного решения. В случае возникновения помех другим службам связи в данной полосе необходимо прекратить работу.

Желаю высоких результатов!

Андрей Викторович !

Спасибо за приятную новость и Труд !
Поработаем первый раз в жизни с янками на 40 м не сплитом ....
Как все-таки времена поменялись - ни Радио Тирана , что даже в VK зашибали весь 40 м диапазон ...
Ни глушилок ...

А тем , кто все выжидает и разглагольствует : зачем нужна ЛРУ - это очередной раз возможность
задуматься - где бы они были сейчас без нашей обще-национальной Организации , в такие времена ,
когдв все перевели на комерческие "рельсы" и мы , с нашим HAM-ством - просто никому не нужны ....

До встречи в Тесте ! 73 ! de UX0FF

P.S. буду SO40 HP

В ЗОО (более 100 человек из 1100 ОБЛАДАТЕЛЕЙ РАЗРЕШЕНИЙ)
как раз и находится элита Запорожских радиолюбителей.
И 32 из них - в элитном клубе UCC.
А ZOO - это другое. Это можно наблюдать практически каждый
день на частоте DX'ов. ;-)

VAG> p.s. Владимир qlj, надеюсь сработать с вами в тесте,

В данной ситуации (участие украинских радиолюбителей в URDXC) нужен
как раз не пролетарский интернационализм, а украинский национализм
с лозунгами: "Ще не вмерла Украина" и "Нас багато, нас не подолати!"
Почему поляков ну очень много в SPDXC?
Так у них лозунг: "Уср.йси, але нЕ дайси!" :-))

Валерію! Ваш сарказм і іронія зрозумілі і обгрунтовані. Але я не став би вдаватися до такої спрощеної форми. Тому що

>лозунгами: "Ще не вмерла Украина" и "Нас багато, нас не подолати!"
>
не зрозумілі українскому загалу. Саме тому не зрозумілі, що українства в середовищі тих кому це послано, немеє.
А той факт, що мало хто зумів кодування перевести на потрібне, і в результаті має деякі некоректні знаки в емайл, є тому підтвердженням.
Не закликами і "лозунгамі" формується український і інший національний

патріотизм. А дещо іншим. Тим. що читала вам мама, коли ви були маленькі, і тим, що і про що вам розповідали ваші вчителі в школі. Якщо вони були патріотами України. І багато, багато іншого. Але це наступного разу.
І якщо бажаєте, я розповім вам як живуть і будують своє майбутнє громадяни Ізраілю. Скажу наперед, що нашій спільноті ДУЖЕ далеко до них. Причин дуже багато.
Дехто думає, що все про що я написав, далеке від радіоаматорства. Саме така точка зору стоїть на заваді нашої дальнійшої інтеграйії до загальносвітової цивілізації. Як хочете так і сприймайте мої слова. А історія покаже хто був правий. Але для свідомої людини це відомо вже зараз.
З повагою до в всіх Володимир.

Если уж демократично, то было бы неплохо контест комитету пообсуждать нововведения сначала с контест общественностью (например, в рефлекторе). А то выходит: мы решили - вы делайте. Причем здесь демократия? Подстраиваться под каждого не нужно и не выйдет, но традиционное противостояние CW и SSB не замечать представляется близоруким. На мой взгляд, можно было бы все категории убрать и оставить только три (для индивидуалов), а именно SOABMIX, ...CW, ...SSB. (Предложение на будущий год). Спасибо,

Приветствую всех,

Мои результаты и краткие впечатления от CQ WW SSB part. Практически никогда не работаю на результат в этом тесте. Скорее использую его для обнаружения и доводки слабых мест перед CW туром, который и есть, собственно - The Contest :-) Ну и для удовольствия - в SSB больше стран представлено, да и просто новых станций.
Отработал, тем не менее, неожиданно много - около 37 часов. Хотя "ночи спал". Главное внимание уделил недавно установленной антенне MonstIR Yagi от SteppIR. Крутил не ленился, поворачивал практически на каждого DX, независимо от контест-стратегии: мульт или нет. Стратегии, кстати, и не было. Как оказалось при подготовке отчета, на 10-ке нет ни 17-ой зоны, ни 25-ой... UA9 отсутствует также на 80-ке. 13 BY на 15-и и ни одного ни на 20-ке, ни на 40-ке.
Зато антенна воистину доставила удовольствие. Анализ ее работы еще предстоит - мы с Николаем UT2UZ работали какое-то время синхронно, чтобы впоследствии сравнить с его полноразмерными 3-мя элементами на 40-ку и стеком 4 x 4 на 20-ку. Пока же просто впечатление.
Острота направленности - градусов 10 - 20. При слабом сигнале, отвернувшись на 30 градусов, корреспондента уже не слышно совсем. К концу 2-го дня стал подглядывать в кластер и начались удивительные вещи. Вспомнилась тактика малти-малти коллектива, где мне посчастливилось участвовать 15 лет назад в Калифорнии. Тогда, сидя на подборе, я просто ставил азимут и не включая прием ждал окончания вращения антенны. Наблюдая за оператором на рановым месте, напряженно ждал сигнала о возможности позвать. Звал и, наконец, включая усиление слышал: WZ6Z 59... Примерно так было и сейчас, но уже не в Америке. Почти безотказное появление корреспондента в указанном месте и столь же безотказный ответ. Другим интересным наблюдением было то, как корреспонденты появлялись из нуля, причем, как я уже сказал, в конце вращения, когда уже казалось, что в указанном месте никого нет. Оказывалось есть и горячо трудится, хотя часто и на другом направлении - JA или K. При окрытии нашего прохождения и в его зените отвечали, как правило, с первого раза. Да и на закате прохождения при слабых сигналах SA и AF продолжали отвечать, хотя уже иногда и переспрашивая. Карибский бассейн на 20-ке после 22 часов по Киеву практически не отвечал. Шли на 9 с плюсами и не слышали даже настолько, чтобы переспросить, а не зовет ли кто-то. 9-ю зону еще можно дозваться, остальные - нет.
Интересной, конечно, возможностью является возможность изменить направление на 180 градусов за 2 секунды. Часто пользовался. Кроме того, особенно понравилось передавать одновременно в 2-х направлениях: вперед и назад (то есть, как бы на две антенны одновременно). На 40-ке вечером, как уже тут писали, был дурдом. Зато можно было отвечать на все вызовы по очереди: EU/JA/VK. Поворачивал только градусов на 30, с северной Европы на южную и соответственно с Австралии на Японию. Конечно, такого

удовольствия, как на 3 элемента с удлиненной траверсой, стоя задом к южной Европе разгребаешь японский пайл-ап под неким "найн алфа сколько-нибудь алфа" и он даже не догадывается о тебе, в этот раз я не испытал. Подавление назад, думаю, у монстера уступает полноразмерной яге. При работе на два направления, имеешь удовольствие, к тому же, слушать сплеттеры европейцев :-(.
Из других впечатлений запомнилось несколько связей на 80-ке утром в воскресенье в пол девятого по Киеву. Слушал на 2-х частотах и отвечал Европе на своей и Штатам на 3844. После теста посмотрел архив кластера, меня проспотил янок - позвало с 10-к станций. В том числе, V26B. WA3C из 4-й зоны поблагодарил за малтиплаер.
Не подумайте, что раньше меня ДеИксы не звали, или что я не работал сплитом. Все было, особенно на хороших антеннах. Никого не хотел удивить. Большинство так и работает. Просто появилась минутка времени и желание поделиться впечатлением. Ну, и конечно, уже кондрат бьет в предверии CW тура. Спасибо всем кто позвал, зовите еще :-) До встречи в телеграфном туре.

Hello Bob,

Just to let you know that SD now uses templates for your
contest, so that users have no configuration files or
parameters to worry about.

SD supports SO entries in this event. V13.09 runs on any
Windows PC and is free from www.ei5di.com/sd/sdsetup.exe

SD SETUP:
Ukraine entrants - select SD's "Ukrainian DX, Ukr" template.
Other entrants - select SD's "Ukrainian DX, DX" template.

That's all there is to it!

By the way, I would like to sponsor a plaque for SOAB LP
(Category B - Ukraine). Please let me know what arrangements
are required.

73,
Paul EI5DI

UT5IA еще работал на 80 CW только.Приехали ко мне на дачу поддержать
тест, а нам в ответ не оказалось элетричества :-(
Подождали-подождали и сняли с машины аккумулятор и приняли
участие.Работал Сергей всего три часа, дополнительным ограничителем
выступила разряженная "коногонка", которой как раз и хватило на три
часа освещения бумажного лога, связей 200 провел на 50 Вт.Даже свечки
не оказалось-привыкли к цивилизации.
Удивительно, но отвечали все очень хорошо,Ю даже на ЦЩ звали.Уровни
сигналов были какие-то запредельные у всех от UA0 до G/EA.Ниже 9
баллов по С-метру практически никого не было.Интересно у всех так было
на 80 метров?

Раньше Юра чтоб не проигровать HP станция заявлялся LP,но после ввода
онли микс категории,понял что проиграет теперь и LP
станциям,потому что "невзубногой" телеграф,ну и соответственно решил
победить в QRP категории.Учитесь пацаны ;-)

Здравствуйте, Сергей.

Вы писали 12 ноября 2006 г., 13:13:55:

СШ> Были высказывания типа, учите телеграф, опа приехали, человек всю
СШ> свою сознательную жизнь не знал телеграф

купив третью, вторую и первую категории за сало ;-)))

СШ> и на тебе, для того что бы участвовать в лучшем контесте мира,
СШ> то бишь UKRDXC, он взял и выучил телеграф за неделю.

За неделю не получится. Как и за всю сознательную жизнь, если нет
такого желания. Собственно так в любом деле.

СШ> Ладно нам телеграфистам, куда ни шло поорать, глотку подрать, тем более
СШ> есть попуги,

что я и делал поневоле в SOSB 20M (361 qso CW и только 120 - SSB) ;-)
Спасибо Игорю УТ7ЩФ, что обеспечил меня в свое время цифровиком DRU-3A.
Пригодился сейчас. Здорово берег мои голосовые связки!

СШ> а что делать тем кто не знает телеграф.

А что делать тем, кто не умеет работать SSB? ;-)))
Или зубы вставные болтаются? На какие муки их обрекли? :-))

Ну, это все в порядке шутки.
А если серьезно, то я предложил бы в многодиапазонном зачете
для SO отдельные три подгруппы - или только CW, или только SSB, или MIX.
А вот в однодиапазонном - все-таки только MIX, сохранив здесь возможность
работать вне зачета на других диапазонах (для массовости и собственного
удовольствия). Надеюсь, судейская программа с этим справляется без
проблем.

Приветствую!
Я полностью согласен с выводами и предложениями
Игоря UT7QF.С удовольствием поработал CW и SSB.
В прошлом году работал LP только CW.Бывало,что
в час проводил несколько QSO.Просто нет корреспондентов!
В этом году проходил тест активнее.
Примечательно,что подходили несколько иностранных
радиолюбителей и приветствовали на украинском языке.
Не упускал возможность ответить им тем же.

Проверил PA и работу-коммутацию антенн для различных
диапазонов.Нашел слабые места.Есть фронт работы!
Даже попробовал бевередж,который натянул по
осветительным столбам в условиях города длиной 200 метров
на высоте 4-5 метров.Направление-на юго-запад.Эффект есть.
Вот что получилось.

Коллеги, Друзья!
Поздравляю с Днем радио, телевидения и связи!!!

16 ноября каждый украинец, включивший с утра телевизор,
заглянувший в почтовый ящик, послушавший новости по радио
в машине или маршрутке, нервно оглядывающийся, стараясь
различить в полифоническом многоголосье звонок своего
мобильника, поднявший телефонную трубку и наконец-то
добравшийся до вожделенного Интернета — символически
отмечает День работников ежедневно обеспечивающих ему
возможность общения в повседневной жизни и пространство
для коммуникаций в бизнесе.

73 ! Best regards!
Yours sincerely,

EPC PSK63 QSO Party - Условия 2006
Спонсор: EPC - Европейский PSK Клуб
Вебсайт: www.eu.srars.org
Электронный адрес: eudx@...
_____

ДАТА И ВРЕМЯ

Европейский PSK Клуб приглашает всех радиолюбителей мира к участию в
международных соревнованиях на КВ √ EPC PSK63 QSO Party, которые
будут проходить с 00:00 до 24:00 UTC 19 ноября 2006 года. Всего 24
часа зачетного времени.

ЦЕЛЬ

Основная цель проведения соревнований √ проведение как можно
большего количества радиосвязей в режиме BPSK63 на КВ. Участие в
соревнованиях проходит по принципу √ ╚каждый может работать с
каждым╝, независимо от географического расположения участника и
принадлежности к клубу EPC.

ДИАПАЗОНЫ И ЧАСТОТЫ

Засчитываются радиосвязи на 160, 80, 40, 20, 15 и 10 м. В скобках
указаны рекомендуемые частоты для работы в соревнованиях - 160 м
(1838...1840 КГц), 80 м (3582...3584 КГц), 40 м (7037...7039 КГц),
20 м (14072...14074 КГц), 15 м (21082...21084 КГц) и 10 м
(28082...28084 КГц). Засчитываются радиосвязи только в режиме BPSK63.

ОСНОВНЫЕ УСЛОВИЯ

Никто из участников не должен превышать лимит излучаемой мощности
100 Вт. Все передатчики и приёмники должны быть расположены в
пределах круга 500 м или в пределах частной территории владельца
радиостанции. Все антенны, используемые участником в соревнованиях,
должны быть физически соединены проводными или коаксиальными линиями
с используемыми передатчиками или приёмниками. Только один позывной
участника должен использоваться в соревнованиях для заявления на
результат. Всем участникам разрешается использовать только открытые
сети DX оповещения, такие как пакет или веб кластеры. В данных
соревнованиях существует только одна зачётная категория √ SOAB (Один
Оператор √ Все Диапазоны). Каждый участник должен самостоятельно
работать в эфире, вести лог и следить за сетью DX оповещения, без

чьей либо помощи. Излучение только одного сигнала разрешается в определённое время. Оператор может менять диапазон в любое время.

НОМЕРА ОБМЕНА

Члены EPC клуба передают рапорт и свой членский номер (пример √ 599 EPC012). Участники из других стран мира передают рапорт и порядковый номер связи, начиная с 001 (пример √ 599 001). Просьба для членов клуба EPC передавать свой номер слитно, без каких-либо пробелов или знаков между ╚EPC╝ и самим номером, при этом сам номер должен состоять из трёх цифр. То есть передаваемый номер для членов EPC клуба состоит из шести знаков, передаваемых одной группой, где первая часть всегда ╚EPC╝, а вторая √ три цифры членского номера. Если членский номер состоит из 1 или 2-х значного числа, то соответственно добавляются нули √ EPC002, EPC036, EPC367 и так далее.

НАЧИСЛЕНИЕ ОЧКОВ

Радиосвязи с членами клуба EPC дают по 5 очков, радиосвязи с другими участниками соревнований дают по 1 очку. Повторные радиосвязи засчитываются на разных диапазонах.

МНОЖИТЕЛЬ

Множителем являются разные EPC номера на каждом диапазоне.

ИТОГОВЫЙ РЕЗУЛЬТАТ

Итоговый результат для всех участников подсчитывается следующим образом √ общая сумма очков за проведённые радиосвязи умножается на суммарное количество EPC номеров сработанных на каждом диапазоне.

НАГРАДЫ

Участники, занявшие первое, второе и третье места в своей стране или первое место на своём континенте, будут награждены соответствующими сертификатами, которые выполнены в PDF формате с большим расширением для качественной печати. Сертификаты будут отправлены победителям через email. Победитель, занявший первое место в мире, будет награждён специальной плакеткой √ EPC PSK63 World Plaque. Результаты соревнований будут опубликованы на официальном вебсайте EPC клуба. Если несколько участников набрали одинаковое максимальное количество очков, то каждому будет выдан диплом, но с убывающей степенью, где преимущество имеет тот, кто набрал наибольшее количество множителей. Все награды оформляются на имя и позывной участника, коллективным участникам √ на имя клуба и позывной клубной радиостанции, использовавшийся в соревнованиях. Дополнительно учреждено ещё 12 плакеток за первые места в следующих географических регионах: Европа, Азия, Северная Америка, Южная Америка, Африка, Океания, Великобритания, Скандинавия, Россия, США, Канада и Япония. Эти плакетки являются платными, и могут быть заказаны по желанию победителей через менеджера EPC клуба. Любой радиолюбитель или

радиолюбительский клуб может дополнительно учредить свой персональный приз для соревнующихся. Для регистрации приза достаточно связаться с менеджером EPC клуба.

ОФОРМЛЕНИЕ ОТЧЁТОВ

Время должно быть указано в UTC. Все принятые и переданные рапорта должны быть зафиксированы в отчёте. Просьба не удалять повторные радиосвязи из отчётов, штрафные очки за них не снимаются. Комитет соревнований принимает только электронные отчёты в формате Cabrillo. Бумажные и отчёты в других форматах не принимаются! Образец Cabrillo файла можно посмотреть на вебсайте EPC клуба. Отчёты высылаются на eudx@... где поле ╚Subject (Тема)╝ электронного письма должно содержать позывной участника. Файл отчёта должен быть также назван позывным участника (например √ mm0dgr.cbr). Необходим файл только основного лога, никаких отдельных суммарных файлов присылать не требуется. Все электронные отчёты автоматически подразумевают тот факт, что участник соревнований чётко соблюдал условия соревнований и требования своей радиолюбительской лицензии. Другими словами, если участник высылает свой электронный отчёт, он даёт тем самым подтверждение своего корректного участия в соревнованиях. Отчёты должны быть отправлены не позднее 30 дней после окончания соревнований.

ДИСКВАЛИФИКАЦИЯ

Нарушение требований лицензии участника или данных условий соревнований, неспортивное поведение, слишком большое количество неподтверждённых радиосвязей и множителей √ предусматривают дисквалификацию. Неправильно принятые и записанные в отчёт позывные корреспондентов будут квалифицироваться как неподтверждённые. Участники, инициирующие установление радиосвязей с собой с помощью телефона, телеграмм, интернета, пакетной связи или обычной связи через УКВ, также подлежат дисквалификации. Все действия и решения комитета соревнований являются официальными и окончательными.

Best regards,
Victor
Contest Manager.

Уже треп достал за мощность.Почему нигде кроме как у нас в
рефлекторе это не обсуждается?Мощность превышают не только на
Украине.Как бороться с конкурентами?Тем же керченцам с RU1A,где на
двадцатке у них по киловатту в каждом элементе антенны,а элементов
на 20-ке аж тридцать семь штук.
Взяли б Николай и разрешенной мощностью заняли б первое место
в мире,а мы б вам бронзовый бюст на родине героя.А то дейстенные
методы,действенне методы...

Что в вашем понятии запредельная моща?
ГУ-78-это запредельно?А вы на своей 78-й мощу прикручиваете до
киловатта?Кто интересно из ваший прямых конкурентов использует
запредельную мощу?ПОКОНКРЕТНЕЙ.
Чтоб вы получили двойное удовольствие,выбирите тест и сообщите
всем конкурентам,что собираетесь поработать.Все дружно выставят на
передатчиках разрешенную мощу-и вы чемпион!

Постоянно работающие в категории SOAB HP(на вскидку 10 человек)

Владимир,я так понимаю вам просто уже неинтересно работать,и вы
от нечего делать работаете положенным киловаттом и учите
нравственности.
Но всегда ли вы были четсны?На UB3IWA у вас была разрешенная
моща?Если работали не нарушая интсрукции с меня коньяк и публичные извинения!

Помоему сейчас намного сложнее.Раньше не было суперпозиций в мире.

Нет,ну я оговорился-если я не прав то принесу свои извинения
Владимиру.Но если мне не изменяет память то киловатт не был разрешен
в Союзе.Только двести ватт на КВ и десять на 160.Если Владимир
работал именно с этой мощностью- с меня коньяк.Если нет-не надо тогда
про "диагноз".При союзе 1 киловатт-это как сейчас пламя.Все помнят

У нас в Донецке, практически в центре города,в 2-3х километрах от
UR3IWA, стоя ли ВЯЗы-"XI". Больше всего доставали на 7 и 21 МГц

Я не пойму -они дорогу вам перешли? Одна коллективка в стране
осталась и ту в грязь.Раньше никто внимания не обрашал на две ГУ-5.
ВЯЗы,ПЛАМЯ,ПКМы.Вспоминайте UK5MAF,UB4MZL,кучу донецких коллективок.
Было все в порядке вещей,а сейчас,что совесть проснулась?Поздновата она
просыпается.Заканчиваем безполезный разговор.Потому что он касается

Тут да , прикол.UB3IWA "точку" UT1IA использовали, а наоборот
нет.Может пару раз в каких-то мелких тестах.Да и физически это было не
выполнимо-ИВА работала почти во всех тестах, места свободного не
оставалось для личных позывных.

Приветствую всех,

Коротко свои впечатления о тесте (все субъективно! - другие люди наверняка имеют другой опыт).

Прохождение.
На 160 хуже, чем в предшествующую неделю-другую, когда бывало звали 7-8 районы Штатов. Сейчас же в первое утро позвали неизменный VE1ZZ и K3UL и все. На второе утро сигналы из Штатов были странные, как через пелену, все как-то шелестело короткими бурстами. Сигналов было мало, но те, что были (биг ганы)- были громкими, хотя и шелестяще-звенящими. В остальное время и на остальных направлениях, как мне показалось, все было как обычно. Удивляли неизменно громкими сигналами в течение двух суток GM3POI, G5W, GU4YOX, 3V6T... Но самое большое удивление - 8Q7DV 599+ вечером в воскресенье. Врядли в этот момент европейцы были громче. Вспомнились экспедиции XZ1N (96) и XZ0A - гремели на своем заходе. Запомнился громкий VO1AAM.

На 80 было весело. Как раньше на сороковке, когда я в однодиапазонном зачете несколько лет назад сделал почти 1700 Q, из которых 600+ американцы и 200+ японцы. Конечно, столько на 80 я бы никогда не сделал, но 106 янков из 500+ Q для меня тоже радость немалая. Подумал, вот что значит загородный контест сайт. Вкусил, наконец-то. А то все слушал чьи-то рассказы и слюнки глотал.
Громко проходил вечером в воскресенье VK4EMM, ну и как и перед тестом, ZL1KMN. Оба были хорошо слышны сквозь непрерывно зовущих европейских спецколлистов. Американцы были круглыми ночами. Запонился непонятный сигнал AA7JV, ходившего большей частью на поиск (не low power ли часом :-) с удивительно громким и ровным сигналом, больше подходившим бы какому-нибудь PA7JV :-). Из нормальных янков самыми громкими были стоявшие столбами K4ZW, K3LZ, W2PV. Аномалий, вроде бы, не заметил.

На 40 в первое утро янков практически не было. Жалкие воспоминания о лучших временах. Европа была с самого начала без постепенного появления, как это бывает нормально. Вечером уже было все хорошо и янки пошли во-время и даже рано. Звали через раз - американцы и японцы. Антенну крутить не было особого смысла (на ране) - звали все, включая VK, при антенне, стоящей на стейтсайд, естественно. Вечером в воскресенье ненадолго появилось характерное для легкой авроры мелкое федингование некоторых DL. Я уж было стал пугаться. Но нет, эфир стал опять кристально чистым, как все годы уже лет 5 в конце теста. Янки, иногда разбавляемые приятными карибами, звали толпами. Но уже коварно подкрадывался финиш.

20,15 и 10 описывать особой охоты нет, так как уже много впечатлений, совпадающих с моими, опубликовано.

Личное. Результатом доволен. Не совсем лучший, но годы-то какие! Я имею в виду и солнце и возраст. Сетап великолепный, но требует большей фамильярности - все новое. Вот на следующий год!:-) Беверидж проложил в одиночку в четверг. 350 метров по метровым зарослям бурьяна, хорошо для антенны, но угрохал все силы, до теста не восстановился :-) Хотя просидел за трансивером удивительно много - 42 часа, при том, что в последние годы это было 35-37.
О беверидже пока впечатление двоякое. Нет волшебного эффекта антенн с усилением - включил и слышишь громче. А тут, все становится тише. Зато ровнее. Все сигналы и дальние и ближние, и громкие и еле слышные, все становятся ровными и читаемыми. Кончилось тем, что на 160, да и на 80 прятнее было слушать именно на беверидж, что я и делал. Переключался на треугольник только если не мог разобрать вызов, скажем UA9. На треугольник он, конечно, становился громче, как правило, 7 - 9 баллов. Так что, извините, если кого не услышал, забыв переключиться. Такое бывало :-(
Thrill. Ран на американцев на 80: 50 станций 5 и 4 зон плюс перемежающие их европейцы. Всегда приятно, когда тебя зовут DX сами. Как говорит Fred K3ZO: самое большое волнение в предвкушении, а что же тебя ждет в следующую секунду, со следующим поворотом верньера. В этот раз, сам Фред меня позвал и на 80, и на 20. На 80 позвали TF4M, TI5N, 9N7JO и др. хорошие множители. Запомнился ран на 20 вечером в воскресенье. Казалось бы уже всех ганов переработал, некоторые на 6 и 5 диапазонах. Ан-нет, еще пистолей достаточно. В течение почти полутора часов рейт доходил периодически, как показывал Микс в десятиминутном исчислении, до 200, хотя за весь период средний рейт оказался все же 132 Q/hour. Но и то не плохо, если бы все часы такими вышли :-0 Я был бы как UA9CLB! :-)
Неприятные эмоции. Вплоть до хамства - HA8BE на 160, SN2B на 80. Неприятно агрессивны в одном эпизоде каждый были UW5W, UT2II. Наехал однажды и UW2M не церемонясь, но ненадолго.

Но вот, наконец, и скромный (особенно в сравнении с изложенной историей) результат.

Интересно что я такого сделал не церемонясь?Я и позывного такого не
помню в тесте UV5U.На каком диапазоне?Может отвернут был?
Если на НЧ мог слушать на восточные бевера и вас не слышать,прошу
извинить,всякое бывает------это не по злобе!
Ну и это не повод в рефлектор тут делать громкие заявления-другое
дело если я вам лично нахамил.У меня за время теста сотню раз садятся
на частоту или мешают принять ДХ.Я ж не перечисляю все позывные в
рефлектор.На то они и соревнования-с трудностями.Без трудностей можно
только пиво пить,смотря телевизор.

Роман, да я и не обиделся. Сам наверняка не раз кому-то помешал. Это понятно. Но в этом случае, подозреваю, меня было слышно, потому и написал. Дело было на 40 вечером. Я Вас слышал не менее 7 баллов. Ну, а в рефлектор...? Так это же не партком :-) Заявления здесь неуместны, да я и старался не делать заявлений, категорических оценок. Наоборот, моя цель была позитивно изложить простые детали, чтобы было всем интересно. С одной стороны, надоели разборки, а с другой, если детали не приводить,то и читать не интерсно. Ну, и это же правда, в конце концов, с моей субъективной точки зрения конечно, работал на моей частоте минуты три, пока не убедился, что не зовут. Подумал, наверное, плохая частота почему-то :-) Я тоже, повторяю, наверняка на кого-то сел ненароком, может следующим письмом мне не это укажут. Но я, по крайней мере, пытаюсь давать вопросительный знак вначале и стараюсь это делать не для формы, я чтобы убедиться, что никто не возражает. Этого в данном случае с Вашей стороны не было. Может в других случаях было. Не обижайтесь,

Приветствую всех

И хочу сделать предложение.
Да, согласен. В мире сложилась определенная практика использования усилителей мощности, которая, по-видимому, де-факто мировое сообщество устраивает. По крайней мере, борьбы с этим явлением не заметно пока и международные контесты носят привлекательный соревновательный характер (за исключением двух очевидных лукавств: "лоу" пауер с усилителем и работа с кластером под видом традиционной эвристической охоты). В принципе я тоже согласен с Романом, усилители мощности (лампы в них) более или менее известны и их обладатели соревнуются МЕЖДУ СОБОЙ на паритетных основах. Сильный контестмен с 1 квт вполне способен победить менее сильного с несколькими квт. Тоже с коллективами. Станций, работающих хай пауер не так уж и много. Лоу пауер все же больше. Поддерживаю много раз звучавшее предложение о моратории на обсуждение темы используемой в международных контестах мощности.

Иное дело соревнования внутри Украины. Тем более, Чемпионаты Украины. Предлагаю, начиная с сезона 2007 года ввести в Правила проведения всех Чемпионатов Украины запрет на использование ЛЮБЫХ усилителей мощности. В зачет идут только связи, проведенные на "голый трансивер". Для защиты от мошенничества вновь избранный (надеюсь) сегодня контест комитет придумает, к примеру, новую клятву, чтобы стыдно было нарушить, назначит судей и, если надо, аторитетных комиссаров, уполномоченных снять с зачета ЗАПОДОЗРЕННЫХ в превышении мощности и т.п. Много чего можно придумать, если контест комитет захочет это делать. Идея проводить локальные тесты лоу пауер витает в воздухе. Такие тесты даже проводятся время от времени. Вопрос только политической воли вновь избранной верхушки ЧТО-ЛИБО делать.

Подробнее смогут написать те, кто присутствовал до конца и в курсе событий. Я же уехал, когда началась заседани и пошла работа по протоколу - кто за, кто против. Мне от партсобраний плохеет. Считаю, что самое продуктивное время, когда люди хотят и могут конструктивно обсудить наболевшие вопросы, традиционно на каждой Конфереции бездарно уходит в песок (на бессмысленные дискуссии о мандатах, полномочиях и пр.) Меня мало интересует, что в результате будет сбережено в архивах Лиги в виде протоколов, составленных с соблюдением всех законов. Ну, а кто чем дышит, удалось немного ощутить потусовавшись перед началом :-)

Олег,

Согласен. Факты лучше. Подозрения я упомянул, вспомнив опыт, подсмотренный в Штатах. Там люди даже имея право отнести личные расходы на затраты фирмы, не делают этого боясь подпасть под подозрение налоговой службы, которая потом житья не даст проверками и придется бизнес закрывать. Для перестраховки предпочитают менее выгодное, но создающее позитивную репутацию, поведение.
Так и здесь. Заподозрили, что 43-я, попросили объяснение, провели расследование, внесли в черный список. Если добыли факты, перевели в малти оп или чек лог.
Хотелось подчеркнуть, что кто-нибудь должен хотеть этим заниматься. Получить эти факты, обдумать их и вынести решение. Судейские комиссии должны были бы это делать, но... То ли члены комиссий заняты чем-то другим, то ли они не авторитетны и боятся радикальных решений. Рефлектор рефлектором, но если бы подобные решения принимались бы уполномоченными людьми, и в рефлекторе грязи, возможно, стало бы меньше.
Сейчас опять пришло время новых людей (надеюсь). Выборы. И опять шанс сделать что-то для улучшения ситуации, используя их энтузиазм.
Пусть бы контест комитет обязали публиковать свои протоколы или релизы или что там они пишут, в рефлекторе. Больше гласности.
Ну, а что касается конкретных предложений, 43-ю, мне кажется, можно просто услышать в эфире. Или "заподозрить" :-)
Кроме того, можно ввести запись теста. Вон, K5ZD весь WW записал, видно как он работал - без кластера и на легальной альфе, думаю, многие десятки, а то и сотни химиков обошел.
На мой взгляд, нужно обязательно отказаться от спортивных разрядов и званий, как от пережитка радянської ментальности, чем надеюсь существенно уменьшится мотивация обмана.
Многое можно сделать, имея в виду любительский характер нашего занятия. Тут не нужны законы и конституции. Есть правила соревнований, правила их судейства и моральный кодекс - 10 заповедей (не забыть ввести новую клятву - работал на "голом трансивере").

Потому и пишу, думаю потрудиться придется, да и не один год. Но начинать когда-то надо. Этот парадокс должен как-то разрешиться: мы друг друга не слышим из-за собственных сплеттеров, а из Штатов присылают анализ наших сигналов на 80 во время Чемпионата - 599, 589... Так с кем мы работаем? При этом основная масса украинцев просто не связывается с этим мероприянием. Во-первых, если 30 связей не наберешь, снимут, а то и закроют (за некачественный отчет, за его невысылку и т.п. - разряд не указал, год рождения...). Во-вторых, все равно не посоревнуешься из-за мощи.
Не знаю пока, кого избрали теперь председателем контест комитета, но попросил бы его (или уполномоченного им члена комитета) опубликовать в рефлекторе программу деятельности, проект контест календаря, правил соревнований и т.п. Андрея Викторовича, поздравляя с переизбранием, попросил бы намекнуть ему (с контролем за исполнением :-)

ВОТ ЭТО - В САМУЮ "ДЫРОЧКУ"!!!!
Когда над судьей стоит либо президент, либо организатор - то это
уже не судейство! А это имело место в совсем недавнем прошлом!
Да простит меня Коля Лаврека и Георгий Игнатов, sorry!

Здравствуйте, .

Во время конференции в Киеве, а точнее после окончания ее субботней
работы был проведен расширенный Совет UCC. Из присутствовавших на
конференции членов UCC:
UT7WZ,UY5XE,UR5EDX,UT5EA,UT3UZ,UT5UDX,UT7UJ,UT5UIA,UT2UB,UX1UA,
UT7XX,UT7GX,UT5DL,UY5AA,UT5SA,UT5PW,UR3MP,UU2JA,UX3IO,US8IM,
UY5EG,UT8IO,UT2II,UY5ZZ,UT7QF,UR7QM,UR5QU,UT1QL UR7UT
на Совете была большая часть ...
Согласно поданным заявлениям и Устава клуба большинством голосов в
клуб приняты новые члены : US0YW #223, UT3NK (UT3N)#224, UR5NGI #225,
UU5YL #....88 Поздравляем!
В кулуарах с присутствием UT5UDX, UT3UA, UT7UJ,UX1UA и на Совете клуба
очередной раз шло обсуждение Положения URDXC приминительно к
украинским участникам. Большинство высказалось за введение разделения
по модам многодиапазонных украинских участников. Т.е.предложено ввести со
следующего года для украинских участников такие подгруппы: SOAB MIX,
SOAB CW, SOAB SSB, SOSB MIX, MO, SWL
Конференция утвердила смету, где сумма денег на проведение URDXC была
принята на уровне расходов прошлого года.
В этом году, как и в прошлом UCC на паритетных правах с Центральным
Радиоклубом организовывает чемпионаты по радиосвязи на КВ (CW,SSB) и
их судейство. Пока имеются две судейские коллегии (киевская и
запорожская), изъявившие желание судейства данных чемпионатов. До 1
февраля 2007 года двери на это мероприятие открыты. Ваши предложения
- с удовольствием будут рассмотрены и приняты. Организаторы
чемпионатов примут любые спонсорские предложения. Обращаться к
UT2UB или UY5ZZ .
Не "забыли" уплатить членские взносы за 2007: UY5XE UX3IO UT8IO UT2II
UT2IO UT2IZ US8IM UT7GX UT5UIA UT7XX UR7QM UT2UB UT5PW UR7UT UR3MP

Согласен потратить определенное количество своих ресурсов (человеческих и материальных) на организацию Лоу Пауер Чемпионатов Украины. Если в каждой области может найтись минимум один кандидат, предлагаю свою кандидатуру от Киевской области :-)

Что касается мощности, не знаю как там в теории, а чтобы убедиться в том, как это на практике, еще раз прошу обратить внимание на опубликованный аудио лог Рэнди Томпсона, без кластера и с "официальной" Альфой сделавшего 8 млн. очков ,недоступных подавляющему большинству обладателей 43-ей и кластера.

Не сравнивайте наш QTH с другими.На D4B тоже ничего особенного в
сетапе.И моща такая же.Только очков он под 15млн делал.Ренди Томпсон отдыхает :-)

Приветствую всех!
Вчера у нашего коллеги в Киеве вынесли с квартиры трансивер IC-756PROIII, s/n 3301112 вместе в Запорожским импульсным БП на 30А. Естественно он где-то должен "всплыть" в наших кругах. Судя по
тому, что злоумышленники выносили с квартиры, они даже не догадываются что они украли.
Очень большая просьба ко всем - если будет хоть какая нибудь полезная
информация, сообщите. Вознаграждение гаранитировано!

Здравствуйте.

Сегодня на 16-00 в УГЦР из 42 заявленных СПС ЛРУ-15 нет сведений
об оплате от следующих ЛРС:

1. EM15F - UR5FEO
2. EM15FHY - UX5HY
3. EO15FEL - UR5FEL
4. EM15Z - UR4ZZZ
5. EN15U - UT4UZA
6. EO15IGF – US7IGF
7. EO15YW - US0YW

Из-за некоторых несогласованных действий в УГРЦ в адрес
областных филий высланы разрешения следующим ЛРС:
Запорожье - UR5QU, UY5YY
Одесса - UT2FA
Луганск - UR5MID
Винница- UT3NK
Донецк - UT2II, UT8IT

Всем остальным разрешения высланы на адреса, указанные в заявлениях.

Все вопросы и недоразумения решайте с расчетно-договорным
отделом УГРЦ: т. (044) 422-81-45 (спросить Галину).
Наш куратор - Игорь Магрело, т.(044) 422-82-95. Работают с 08-30.
Квитанцию об оплате можно переслать по факсу.

Окончательная информация будет опубликована вечером в четверг,
14 декабря.
СПС будут работать с 00-00 UKR 15 декабря до 24-00 UKR 25 декабря
2006 года включительно.

LP,QRP - это отдельная философия! Особенно в Украине.
К счастью лже-LP- или точнее брехунов у нас не так и много.
Их можно посчитать по пальцам. Семья UR3HC-папа и UR5HAC-сын
уже какой год стригут огромные очки для рейтинга, получают за брехню
СПС, ценные призы в тестах используя ГС-35Б в своем LP. На все
замечания, основанные на свидетельствах их соседей только мило
улыбаются...Где совесть? Что кишка тонка заявиться по правилам?
Оправдание типа HP в 3-10квт я не имею, поэтому и работаю "украинским
LP " не проходят!
Есть еще такой "спортсмен" -UT9MZ (ex UR5MNZ)с такой же техникой и
наверно с такой же философией...Все последние годы "отхватывал" первае
места в LP категориях. Правда в последнем URDXC видя, что
проигрывает в этой категории (из за незнания CW) заявился в QRP, hi
Однако после всплеска комплиментов в нашем рефлекторе в его адрес
прислал заявление о переводе в его родную категорию LP. Браво ЮРА!
Это уже поступок! Но если бы ты заявился согласно своей мощности -
то был бы настоящим ОМенов (мое личное мнение).
Есть еще несколько исправляющихся LP-повeристов время от времени
заявляющиеся согласно своей мощности:
US0KKKKK(GU43B),US7IIII(GU74B),UT1FFFFFF(GS35B),UT9FFFFF(GU43B)

В этих двух абзацах перечислены примерно 50% активных лже-LP.
Еще раз акцентирую-их, к счастью, не много. И поэтому объединять
всех в одну подгруппу по мощности будет крайне не справедливо.
Да и в мире никто так не делает. Есть ведь радиолюбители, которые всю
жизнь работают (в силу ряда жизненных причин) только на один
трансивер. В Европе таких более 80%. И что из-за 2-5 украинских
брехунов, рвачей ...ущемлять порядочных аматоров.
Лучше еще раз попробовать обратить к совести таких горе "спортсменов"
всем вместе.

p.s. примите мои рассуждения именно как призыв к вашей совести,
господа украинские лоупоуверисты.

Насколько я понял Андрея Викторовича, на конфереции избрана некая судейская коллегия именно с целью отслеживать мошенничество в заявленных результатах. Если бы кто-нибудь из избранных имел активную гражданскую позицию и вкус к общению в рефлекторе, дело можно было бы сдвинуть с мертвой точки. Тех, кто заявлятеся в заниженных категориях (имею в виду и работу с кластером в том числе), действительно не так и много. Даже обсуждение подозрений в рефлекторе уже даст позитивный результат. Новые мошенники, по крайней мере, плодится перестанут. Ну, а старых известных нужно помещать в черный список на ряд лет для перевоспитания (диквалифицировать). Высказанные рядовыми читателями и писателями рефлектора подобные предложения выглядят наездами и часто не приветствуются. Иное дело судейская коллегия Лиги (или ЮСС). Пусть бы они не молчали. Чем больше случаев мошенничества они представили бы в рефлекторе (бюллетене), тем меньше их осталось бы в жизни.

Здравствуйте, URcontest@yahoogroups.com.

Здравствуйте,

Немного цифр вдогонку моего первого сообщения. Конечно для тех,
чьи позывные фигурируют и для тех, кто эти цифры понимает,hi
Шановного адвоката UT7HA, наверно к счастью , не знаю, не знаком.
В TOPах также не значится...

Здравствуйте, Igor.

Вы писали 15 декабря 2006 г., 4:07:34:

IU> Да уж!
IU> Валерий Иванович, как так могло получиться?
IU> Виктор, дай номер своего мобильного телефона.
IU> 73! Игорь

Моя оплошность, что сразу не убрал UY5NYY из общего списка. Надеялся,
что решат эту проблему... Станция закрыта за непродление разрешения в
течение двух лет по п.7.9.2 Регламента. И решать эту проблему нужно
в Виннице с филией УГРЦ.
Значит, СПС на один меньше - 38.
Приношу извинения за неточность.
Хотя общение с УГРЦ идет по телефону и копий разрешений у меня нет...

>> Полагаю, что данный вопрос требует незамедлительной реакции исполкома.

Правильно! Убрать ответственного за СПС как безответственного! ;-)

>> HI,All!
>> Сначала получена инфо:
>>>QM UY5NYY - в получении СПС EM15N отказано Винницкой филией УГРЦ по
>>>QM п.7.9.2 Регламента.
>>
>> А сегодня:
>>>QM По последней информации из УГЦР в честь 15-летия ЛРУ
>>>QM с 15 по 25 декабря 2006 года включительно разрешена работа
>>>QM следующих СПС:
>>>----------
>>>QM 3. EM15N v UY5NYY
>>
>> Реально же на сегдня разрешение на эксплуатацию UY5NYY местным органом
>> УГРЦ изьято,позывной аннулирован о чем получено официальное письмо за
>> подписью начальника Винницкой филии.Думаю, информация предоставленная
>> Валерию из УГЦР есть следствие мягко скажем несогласованности в этом

Никто не запрещает обратиться в УГРЦ как в высшую инстанцию
по поводу противоправных, положим, действий филии.

The stroke (/) VU#??? represents the call of the actual operator. I would ask DXers around the world to refrain
from working VU7LD on the same band and mode more than once, just because it
is a different operator. There is no need to work VU7LD/VU2UR, VU7LD/VU2PAI
and VU7LD/VU3RSB all on 20 meters SSB. There will be no awards for the
station that works the most VU7LD DXpedition!!! You only need to work one
of them per band/mode. It's the same station and will get the same exact

Здравствуйте, .

Вопрос к президенту ЛРУ - UT2UB, вице президенту - UR8LV и
председателю КВ-комитета - UT7QF .

А к какому НОВОМУ ГОДУ и мы - украинцы будем иметь такой подарок?
Конкретро что в этом направлении сделано и что планируется?

копия с contestru :
Сегодня получил в РЧЦ Свидетельство о регистрации РЭС от 4дек.2006г.
Ну вот свершилось - 1000Вт от 3500 до 29700Кгц. ,расширен 40-метровый
диапазон до 7200Кгц., и даже 500Вт. для EME-QSO на УКВ.
Как классно теперь будет звучать контр.номер в ARRL-DX contest-
-599KW(хотя до KW и не дотягиваю).
Удачи 73!UA6LTI

А я вот смотрю итоги CQ WW CW 2005 (p.109,111,"CQ", September 2006) - UR5HAC снова никому шансов не оставил. Опять сильно выступил. Хотелось бы почитать о его сетапе, особенно об антеннах. А возможно, и о применяемой тактике работы в тесте, другим поучиться, вероятно, есть чему. При таких результатах публичность, как бы, напрашивается.

Кстати, в тех же итогах просматривается еще одна сомнительная тема - работа в категории ассистед без указания таковой. Из почти 90 заявленных от Украины результатов, только 8 работали с кластером. Может в 2006 году уже больше народу оснастилось интернетом (ну, и отказалось от старомодного, хотя и чертовски привлекательного, стиля работы)?. И мы увидим через год в итогах более реальную картину?

На конференции было принято решение, что председателя вышеуказанные
судьи изберут сами. Может, будут председательствовать по очереди? ;-)
Срок не устанавливался.

Кстати. А где можно ознакомиться с Уставом контест клуба всего
Черноморского бассейна BSCC? Насколько я помню, Вы там, Дмитрий, были
объявлены в главных разработчиках данного документа. Почти полгода
прошло... Или уже есть, но для узкого круга лиц? ;-)))
Дайте ссылку, пожалуйста.

Здравствуйте, Sam.

Если ты имеешь в виду EO15FF, то этот позывной зарегистрирован
на UX0FF, по итогам прошлого года вошедшего в первую 10-ку
национального рейтинга и имеющего право на СПС для работы в
контестах. Другое дело, что это немного не тот СПС да и выдан он
под юбилейную дату.
Но здесь заявитель Н.Лаврека заблаговременно обратился с
просьбой разрешить работать к UR7QM,UY5ZZ,UT7QF.
Первые два дали добро, т.к. это практически исключительный
случай, третий-не рекомендовал работать...
Вот мой прямой ответ, разосланный в нужные адреса при принятии
решения -

> Я ЗА то, что бы соблюдалось Положение об СПС!
> Т.е. выдан СПС под юбилей или истор.дату - вот и
> работайте.

Дополнительно,уже постфактом. Этот вопрос надо отрегулировать и
законодательно закрепить в Положении о СПС.

Если же станция не входит в 10 по рейтингу, т.е. в соответствии с
Положением о СПС не имеет права на получение СПС для работы в
контестах, то по логике эта станция
НЕ ИМЕЕТ ПРАВА работать в контестах СПС, выданных по другим причинам
и срок действия которых пересекается с контестами.

Юра! Как быстро ты стал парнем чисто капиталистическим и не
совковым...
Припомни. Ведь еще совсем недавно ты писал ЗАЯВЛЕНИЕ на СПС
начинающиеся со слов-
....для достижения высоких результатов в международных соревнованиях
прошу выдать мне СПС...
Конечно, теперь мы все хорошо понимаем, что даже самый крутой СПС
результат не сделает, но...немного помагает, в зависимости от теста.
До сих пор в незалежной Украине мы играем в игры - рейтинг, СПС,
лучший спортсмен года. СПС это все таки определенные очки для того же
рейтинга. Правила игр мы САМИ придумали. Их никто не
отменял. Если вышло время таких правил - надо менять, но не нарушать.
Беспредел или сам себе РЕГЛАМЕНТ и Положение... не годится.

73! UY5ZZ, 39 лет в эфире без СПСа.

Не вижу проблем со стороны UCC - в свое время и инициатора и
разработчика Положения о СПС в поднятом тобою, Сергей Иванович,
вопросе. Для этого надо поработать, особенно в Киеве.

Переработать -"ПОЛОЖЕННЯ

сигналЁв аматорським радЁостанцЁям в Укра©нЁ"
http://uarl.org.ua/general/sps/sps_rul.htm

Особенно в пункте -

1.8.СПС для участЁ в мЁжнародних змаганнях Ёз радЁозв'язку на коротких хвилях можуть
бути призначенЁ АРС у вЁдповЁдностЁ з рейтингом, визначеним на пЁдставЁ Положення

якЁ зайняли за попереднЁй рЁк 1-10 мЁсця та колективнЁ АРС, якЁ зайняли 1-3 мЁсця
у вказаному рейтингу. ДанЁ СПС призначаються тЁльки для використання в мЁжнародних змаганнях.

В поточному роцЁ однЁй Ё тЁй же АРС для участЁ в мЁжнародних змаганнях може бути
призначений тЁльки один СПС для використання з постЁйного мЁсця розташування АРС.

СПС для участЁ в мЁжнародних змаганнях призначаються за клопотанням Виконкому ЛРУ.

Согласовать этот документ с ответственным за СПС-UR7QM,
UCC,возможно президЁей ЛРУ или КВ-комитетом, а далее -

Приветствую всех!
А я вспоминаю, как было загублено хорошее начинание ,как EM11E за работу в тесте соством экспедиции (а позывной был и выдан для оного) и сложно было кому доказать обратное, хотя работали 100 ваттами и с острова.... Всё же поддерживаю использывание СПС в любых вариантах в установленные для СПС сроки! Позор УЦЦ за непонимание данного пункта! Пора принять пожелания общественноси! Давно есть прецендент - пора его решать! Неуж-то один клуб решает за всех радиолюбителей Украины? А имеют ли они право решать за всех? - Пуст в своих рядах наведут порядок! Настала пора Референдума масс!

Здравствуйте.

Мы столкнулись с интересной ситуацией. С одной стороны, у UX0FF
имеется право на использование в международных соревнованиях СПС
EO6F. С другой стороны, он получил СПС для участия в мероприятиях
ЛРУ-15 EM15FF. И вполне логично было бы в этот период поработать
этим СПС в соревнованиях во славу Лиги. Но ОФИЦИАЛЬНО, согласно
положению о СПС и УПС, - нельзя:

umr> 1.5. Дозвіл СПС для участі в міжнародних змаганнях із
umr> радіозв'язку на коротких хвилях надається АРС у відповідності
umr> з її рейтингом,
umr> ...
umr> ...
umr> В поточному році однієї і тієї ж АРС для участі в міжнародних
umr> змаганнях може бути наданий тільки один Дозвіл СПС для роботи
umr> з постійного місця розташування АРС.

Т.е. для участия в соревнованиях - EO6F. В мероприятих ЛРУ-15 -
EM15FF. УГЦР абсолютно все равно, где работает СПС - в повседневной
работе или в соревнованиях. Но законодателем являются они. И нарушать
Положение, а тем более давать кому-то разрешение на ее нарушение,
общественная организация ЛРУ право не имеет. Я думаю, что при
своевременном поднятии данного вопроса и ходатайстве со стороны
Исполкома лиги с УГЦР можно было все решить "полюбовно". Хотя бы
на пару суток раньше, а не за пару часов до контеста...
Тут прозвучало насчет "совкового маразма". Возможно и так. Но
законопослушные граждане любой капиталистической страны нарушать
даже явный маразм в своей стране не станут. Себе дороже!

И даже если в полном составе UCC, BSCC, KCG и другие, плюс
организованный и проведенный Вами, Александр, "Референдум масс"
дружно примут решение всё и всем разрешить, все упрется в Регламент
и Положения, которые утверждает УГЦР.
Путь только один - вносить предложения, готовить под них массу
требуемых документов, сравнительных таблиц и т.д., и добиваться
утверждения в установленном (не нами!) порядке. При этом, работать
бесплатно и в свое личное время. Желающих поработать на этой ниве
и владеющих предметом совсем немного. Могу их перечислить по пальцам.
А так это всё - сотрясение воздуха.
А пока - "Имеем то, что имеем."

Не правильно. Не законодателем, а разработчиком. Действительно,
абсолютно все документы, касающиеся радиолюбительства,
разрабатывались в ЛРУ. В то время было одно видение, но прошло

Володя, uy5zz, высказал свое личную точку зрения на данную проблему.
Она, кстати, совпадает с моей личной в части исключительного случая
EO6F=EM15FF, но не как ответственного за оформление СПС.
Ну не имеем мы право, ни Латышенко, ни Смиян, ни Лякин, ни Павлик
или кто-то еще, давать разрешение на работу СПС.
Назначение СПС - прерогатива УГЦР. ЛРУ может только просить
(ходатайствовать). В этом разница.
Всем удачи.

Учитывая, что

> - Для ГИЭ Украины единственным официальным представителем нашего
> НАМ-ского сообщества является ЛРУ .

видимо нет необходимости создавать какие-либо новые инициативные группы. Уже ЕСТЬ Лига Радиолюбителей Украины, в ней есть все компетентные органы - Исполком, Совет, КВ и УКВ комитеты, пользующиеся доверием большинства и, кстати, недавно вновь избранные. Вот им и следует разрабатывать все новые варианты любых инструкций - и новых, и старых. При этом они могут пользоваться советами и привлекать к работе ЛЮБЫХ специалистов, опираться на пожелания, высказанные в рефлекторах и не только в них.

Или ты им не доверяешь, Коля? :-))

Зачем плодить новые структуры? ("Инициативная группа по разработке предложений для Исполкома ЛРУ по предложениям в ГИЭ по модификации инструкции по СПС/УПС" - что-то типа этого? :-))

Хватит имеющихся.

Дима и остальные ПИСУНЫ типа UU1DX,UT9FJ,UU1AZ!
Ну чего злорадствовать теперь?
Вы ведь ДВА года все вместе были во власти,
т.е. в ВАМИ созданном контест комитете ЛРУ.
И что...занимались ЧУ или EM5HQ или URDXC
или всеукраинским рейтингом...СПСами для
контестов, hi
Критика, если она констуктивная-проходит,
предложения, если они по делу также.

А так один noise в рефлекторе!

Сейчас еще не поздно учредить и спонсировать Кубки на ЧУ
2007 для подгруппы МО.
Взять и полностью отсудить один ЧУ, включая все протоколы и
награждения.
Это реально, остальные вопросы-вам не под силу.

p.s. я конечно и не ожидал какой либо работы на благо всех
контестменов Украины от вашей бригады , как некоторые...
Все было тогда сделано для подстраховки поездки на WRTC,
ведь до последнего национальная организация давала рекомендацию и
делала отбор. Бразильцы это упразднили, hi

В те годы Тим своим удовлетворительным почерком и дорогим фламастером
это делал. Может и ошибся, давай перепечатаю уже на своем CANON-е
Ну опять же зачем столько желчи и угроз, если это в адрес Тима-не

Вопрос только в том, Владимир, слышали ли Вы хоть один голос члена компетентных органов в продолжение этой дискусии? Если они не заинтересованы, то и результат будет нулевой.

Спасибо за предложение.
Я - согласен потрудиться над разработкой проекта новой инструкции (инструкций?).
Для этого мне нужны полномочия, полученные от Андрея Викторовича, и группа поддержки.
Процедуры, предложенные Николаем, мне представляются приемлемыми.
